**DREAM**  
**The Obelisk**  
2017-09-30

Dear Dan,

This multi-part dream occurred when I was employed at (G8).

10 March 1994

**I DREAMED THAT:**

**Act I of II**

*Scene 1*

I was riding in a car with a man from work through downtown Bellevue heading south on Bellevue Way. Looking up we noticed a large obelisk in the sky. It was shaped like an open book held vertically. I saw what appeared to be writing on pages of the book, and while I could not read the writing verbatim I knew that they were words of powerful deception come to deceive the whole world. I had the impression that the perceived size of the obelisk would change to fit the seeing ability of the beholder.

*Scene 2*

Further south we came into a wealthy suburb of Bellevue called Beaux Arts. The Obelisk had followed us from behind and came to a stop above and somewhat behind the car. We had parked alongside the street.

A crowd began to gather in the street in front of us to gaze at the Obelisk, which had pressed itself up against the wires on the telephone pole, still in its original orientation (open and vertical) but smaller so as to maintain the same aspect and ratio to the viewer due to its close proximity. At that point I realized that I needed to get out of the car and preach The Gospel as a Witness, which I did.

I began with Genesis 1:1 and then proceeded to explain the life of Jesus Christ.

*Scene 3*

We got back into my co-worker's VW and headed towards downtown Bellevue. Looking East I noticed that I could see the dark rocky crags of the Cascade mountain range as if they were sitting in Redmond, with Mt. Si being the most prominent. Then I saw a very strange sight. An unseen power which I perceived to be that of Antichrist had levitated a snow-covered mountain into the sky above the Eastside and was moving it around and twisting it as if it were on the end of a stick or baton. I also perceived that many of the people that could see this sight were amazed and awe struck.

*(END OF ACT I — As I began to awake I realized that the reason people can be deceived by the fantastic "signs and wonders" performed by Satan, by his manipulation of God's physical laws, is that they do not know the Creator of those physical laws. Then I fell back to sleep, and the dream continued...)*

**Act II of II**

*Scene 1*

There had been a calamity of some sort that shut down the power to the entire area. I reported to work and noticed that the interior and especially the floor of the building was covered with mud.

People, myself included, were trying to go about their daily duties as per normal. The President of the Company had taken personal charge of the situation and was giving orders and directions. I was in a meeting with some others that were receiving His instructions.

It was my job to act as a Courier and deliver a Package to another location. I remember thinking that I was going to have to avoid running into demons (because there were so many of them) as I made the delivery.

At this point I awoke.

**END OF DREAM.**

Blessings...
