

Letter 23a  
**INTERMISSION**  
**(Coffee Time)**  
2011-10-06

Dear Dan,

With the last letter, #23, I started to write about the events that begin to occur during the seven-month period that I was employed at (G2), October 1999 - May 2000.

The next series of letters will continue what was begun in Letter 23. But while contemplating these matters before the Lord, He has led me to take a break with this letter as I take time to learn more clearly from Him how best to describe what took place.

There are many things that happened all at once, so it seems from here that I will take things on in a more topical approach, rather than chronological.

It's likely that Letter 23 will get a new title, but no change is needed for the content.

I hope you and your household are well.

Enclosed please find a printed version of my contact information.

Be Blessed. We are Loved.
