(...),

Molech is no more. But many of his subordinates are still at large. Removing them will take time. The wars in Afghanistan / Iraq are primary examples of how Jesus is executing what you and I are now doing.

Find and destroy the Head ((Bin Laden), Hussein/Satan), and his sons (Uday and Qusay/ The Two Archangels of Hell), and then go on to subdue the rest of the opposition (Taliban / Al-Qaeda / ISIS / HR).

The Obama Administration's handling of the war in Iraq was an example of what not to do. President Obama withdrew U.S. forces prematurely before Al-Qaeda was fully terminated. This led to the rise of ISIS. An even worse enemy than Al-Qaeda.

May the Lord teach us from these examples, and may we not grow faint in our learning.

It may be that our Job(s), in this Generation(s), is to destroy the Heads of (HR) States, leaving their subordinate HR resources for the Next Generation of Seers (the Sons of

the Prophets) to remove. This is why I try to document as much as I can.

Let us pray, and ask the Lord to reveal His next target.

In the meanwhile, I need a couple of days of R&R.

Many blessings...
