

Letter 855  
**One Gift Leaves,  
Others Take Its Place**  
2020-04-16

Dear **Yeshua**,

**Thursday, 16 April 2020, 1PM.**

Sometime within the past 12 months I was reminded of a really neat Gift I used to have. It had to do with Knowing what I was reading before I read it. Please consider further with me as I explain.

Sometime after I left High School, whenever I picked up a book or magazine, after reading the first few sentences or a paragraph, I pretty much knew the entire content of the book or article.

Not word for word, but concept for concept.

After a while of using this Gift, I would check it and “spot-read” further into the text to see if the knowledge I had was accurate. I remember that what I knew of the book or magazine article was 100% accurate all the time.

What was interesting is that the operation of this gift had a few exceptions. It did not work on the Bible. It did not work on newspapers. And, if I was taking a class or seminar, it did not work on the textbooks I was using for the class.

But for all other books and magazine articles, it worked all the time with 100% accuracy.

I had forgotten all about this gift until sometime last year when I was exchanging emails with some other Seer friends. It wasn't until then that I remembered that I once had that unusual ability. And upon further reflection, I remember that it came to a stop at the time of my motorcycle wreck in July of 1995.

After that, this unique gift ceased altogether \*(see note). But other gifts took its place, namely that of being a Seer. Please see Letters 753-756 Volume 9.

\*NOTE: This was a unique application by the Lord Holy Spirit of the Gift of Knowledge. This Gift I still have. It just works differently now.

Blessings...

R. C. Theophilus
