

Letter 858
3 Days To Freedom
2020-05-20

Dear **Yeshua**,

Wednesday, 20 May 2020, 8:30AM.

Last week marked the end of a relationship in my life with a professional organization dedicated to healthcare, which had started out well, but became corrupt due to the influences of Satan and HR.

This satanic influence and subsequent parting of ways was due in large measure to laws passed which had direct bearing upon this relationship. Some of these laws were enacted by the United States Congress, and some passed by the State of Washington. A smaller measure can be attributable to how the afore mentioned professional organization responded to those laws.

The relationship I am referring to was with the Medical Clinic where my personal physician of over two decades was employed.

I have already written details of this event in emails I sent to two close Brethren, which I will now quote. Editorial deletions or additions will be denoted by (...) or *(italics)*.

=====

BEGIN EMAIL-01 MAY 12, 2020 AT 11:56AM. *(From me to the Brethren)*

Brethren,

Today marks the first of three days toward my complete disconnect with HR as it has been manifested in the Medical/Industrial Complex.

DAY 01 - 12 May 2020:

I pick up my last prescription *(from the pharmacy)* for opioid pain medicine.

DAY 02 - 13 May 2020:

Letters of Service Termination announcement will be mailed to both my Doctor of over 25 years, and the clinic he works for.

DAY 03 - 14 May 2020:

My annual Chronic Opioid Therapy appointment with the clinical Pharmacist at my Doctors Office will be cancelled. It is at these appointments where I have been treated as if I were a criminal, and the main motivator for my parting ways with my Doctor (*(but)* mostly *(because of)* the clinic he works at). I am required to give a urine sample, to be tested for all kinds of drugs, and then required to sign a contract which gives my Dr. *(and/or the clinic)* the authority to micro-manage my life if I show signs of addictive behavior. This in essence strips me of my Constitutional Right to be presumed innocent, and instead presumes me to be guilty (of being an addict) *(and also removes due process)*.

NO MORE.

I have decided I will suffer untreated pain, at least for a time, rather than be treated like a criminal.

Below is a copy of the Letter I wrote to my Doctor.

=====

Dear Doctor (...), Greetings.

After my most recent appointment to see you in March of this year, I came to the decision to move my medical treatments to a different clinic - away from (...).

It became apparent to me that the style and form of medical treatment presently offered to me by (...) no longer fits my personal lifestyle.

This is a decision I did not come to lightly or without much forethought and informed assessment.

The Forethought and Assessment now indicates it is time for me to move on.

I have been gradually decreasing my daily intake of hydrocodone, so that when my present supply runs out, I will not longer take opioids. For this reason I have cancelled the COT appointment to see the Pharmacist (...).

I think it will be difficult, if not impossible, to find a personal physician as competent as you have been toward me over the years. But as I have stated above, it is (...), along with many of the healthcare laws passed by the State of Washington, which have had the greater influence upon my decision.

Accompanying this letter are two copies of a book, one each for both you and (...). Please accept them as a gift to represent my undying gratitude and thankfulness.

I pray for Shalom Peace, and Many Blessings upon you and your profession.

Respectfully,
(...)

=====

(...), the book I mentioned above, where I give one copy each to the Doctor and the Pharmacist, is the one you first recommended to me: "Chasing The Scream". Many thanks for that.

Blessings..
—(...)

=====

END EMAIL-01.

Congratulations. What a day we are in when I must congratulate a free citizen for exercising his inalienable right to be considered innocent until proven guilty. Blessings on you. I'm so glad for the book

choice you made. It was a stern wake-up for me. Hopefully, the doctors receiving it will find the courage to doubt their current practices.

We will pray together for total relief from continuing pain.

My sentiments are the same as (...). It is a terrible state of affairs when a person cannot get healthcare without losing their rights.

Due to this type of issue while I was working in Toxicology, I came to the decision that I felt a free country should not tell anyone what they are allowed to consume. I would rather the limitations (laws) be removed and any criminal penalties for use of any drug/medicine be stopped. If a person has addictive tendencies, the money saved by government on prosecution could be better spent on treatment. Only about 10% of the population has addictive tendencies (from research I have read) yet we are all treated as if we are children.

Some have disagreed with my stance but nobody has given me a good Constitutional reason for allowing prosecution of anyone who ingests any compound.

One of the things that really annoyed me was how Cannabis was a schedule 1 drug when it is obvious it has medical use. These laws protect the drug cartels (pharmaceutical companies) and have no basis in science.

To top it off, the federal government actually has patents on medical use of THC, which goes directly contrary to their stated schedule criteria.

=====

BEGIN EMAIL-02 May 14, 2020 8:53 AM. *(From me to the Brethren).*

Day 3 came one day early:

DAY 03 - 14 May 2020: My annual Chronic Opioid Therapy appointment with the clinical Pharmacist at my Doctors Office will be cancelled.

Yesterday (13 May) I received a voicemail from the Pharmacists office saying that my appointment for 1 June at 7:10AM had been cancelled, and that I needed to call back to make to re-schedule. I had made this original appointment in March, before all the COVID shut-downs. The clinic now opens later than my scheduled appointment, which is why it was cancelled. The bottom line is that the Lord took care of cancelling the appointment (using COVID to do so), so that I do not have to make the phone call, and being questioned why I needed to cancel the appointment.

NO MORE MEDICAL INQUISITIONS!*

Thank You Jesus.

And then, *(within about an hour)* after I heard this voicemail yesterday, I saw this rainbow: *(CLICK HERE FOR PHOTO)*.

END EMAIL-02.

(RESPONSE TO EMAIL-02) On May 15, 2020, at 8:46 AM, (...) wrote:

That is a blatant sign for you. Praise God...

END RESPONSE TO EMAIL-02.

END EMAILS.

=====

And so, for the first time since 15 July 1995, I am completely free of what I have come to term the Medical-Industrial Complex, formerly ruled by Satan through his subordinate Hermes, the Greco-Roman god of both Medicine and Finance. See Letters [174](#), [175](#), [490](#), [529](#).

Enter Jesus, The Great Physician. See Letter [570](#). Amen.

*Some of these same philosophies and practices have leached into the Dental Profession. This will be dealt with in another Letter, at the appropriate time.

Blessings...

R. C. Theophilus
