The Many Versions of Martial Me
2020-12-09

Dear **Yeshua**,

Monday, 9 November 2020, 8AM.

The following text is a quote from an email I sent to a fellow Seer.

BEGIN EMAIL:

(...),

Something interesting happened while I was still employed. This was many years ago.

I was at work, walking down a hallway, while at the same time wrestling with a host of evil spirits.

Then, I saw in spirit-space, emanating from out of me, many copies of me.

I was moving in the spirit so fast that my appearance remained a split second in the place where I had been previously, so that it appeared there were hundreds of "me" fighting.

This confused the enemy, and they were defeated.

I think the Lord Holy Spirit used this tactic once or twice more. After that I guess I didn't need it any more. But it's still available should the need arise again in the future.

It looked pretty cool. I had only seen something like this before in video special effects.

But this was a special effect produced by the Holy Spirit.

END EMAIL.

Blessings...
