

Letter 876p  
**DREAM**  
**Operation Invasion**  
*Deposing A Dictator*  
2021-08-27

Dear **Yeshua**,

**Tuesday, 12 January 2021, 3:50AM.**

About 20 minutes ago I woke from a multi-part dream.

**I DREAMED THAT:**

**PART 1 - Time For Muster**

I was a soldier in a unit similar to the United States Army. I was with other soldiers, and we were preparing to go to battle. We were getting our gear ready to go to the muster point.

**PART 2 - The Bible And The Law**

Then, I find myself at a train station. The train was going to take us to the muster point. As I got on the train there were some people just in front of me and I heard overheard them talking about law and application of law and other related things.

As people were waiting to get seated, I walked along the aisle past a couple, a young man and woman who had already sat down. Still looking for a seat, I turned back and as I was walking past them again, I stopped, and I said to them, "I couldn't help but overhear your conversation."

While I was saying that I saw that they had had put some of their stuff down. One of the things they had laid on the seat beside them was a Bible. So I started talking to them a little bit about legalities and application of law. Then I said:

"IN A VERY FEW MINUTES WE'RE GOING TO DEPOSE A DICTATOR.  
THERE'S GOING TO BE A WAR.  
PLEASE PRAY.

Up until that point the mustering of the military had been a top secret operation. Since this was still a classified mission, I was a little surprised at myself internally for disclosing the some of the details the way I had. But it was also so close to the time of execution that in my view it wasn't going to matter a whole lot.

So, once I saw they were Christians and they had a Bible, (I had asked about what they believed) I just asked them to pray, because there was going to be a war pretty soon and I was going to be in it.

**PART 3 - The Voice of Wisdom**

Next, I'm off the train and going up to where the muster point is. Our unit had taken over some apartment buildings as billets to sleep in. I was on my way to the initial check-in point, while at the same time wondering about my gear; that I left my gear on a truck, and I was thinking "I hope my name's on it because how am I going to get my gear back"; items such as my backpack, duffel bag, .etc.

Then, I find myself engaged in conversation with an older gentleman, who appears to be in his mid to late 70s. An Elderly Man, who was very pleasant to talk with. He seemed to know what was going on, so I wanted to ask him if he knew where my billet was, and where I was supposed to check in so I could get a bunk and find my unit. We engaged in a brief conversation about a few things, which further informed me of his being a very nice guy.

**END OF DREAM.**

**Post dream analysis says that:**

In the dream there is a Dictator that had taken over a country, and it was job of the United States Military to depose the dictator and restore a lawful government. So that is what's going to happen.

The entire operation had been top secret, including the preparation. But now it was time to actually invade the nation, just like we had done in Iraq and other countries.

Angel Gabe informs me that the Older Gentleman in the dream that was the Lord Holy Spirit. The other people on the train and the young couple were angels.

I woke up feeling pretty sore While I didn't have any direct conflicts with HR in a dream, it's interesting that I still have to wrestle to get these messages. There is opposition and conflict in spirit-space to get the prophetic word in order to receive it.

What was happening in the dream was only one or two days before the planned invasion — D Day. This is going down; we're getting ready for it.

That is the end of this report.

Blessings...

R. C. Theophilus
