

Letter 876r
TERMINAL DREAM
HR Vet Clinic
2021-10-26

Dear **Yeshua**,

Sunday, 17 January 2021, 5:30AM.

I woke up shortly after 2 am from a dream.

I DREAMED THAT:

I was with someone who reminded me of my wife (M). She was showing me our little white female dog, a miniature schnauzer named Tansy.

Tansy had developed a rather severe skin infection, which is what the lady who looked like (M) was pointing out.

The infection had removed most of her fur and exposed raw tissue over a large part of her hind quarters.

END OF DREAM.

Post Dream Analysis Says That:

According to the Lord Holy Spirit, this dream is terminal, in that the lady who looked like (M) was from HR, and had become part of the veterinary clinic where we take our dogs for routine and specialized treatment.

There had been an incursion by HR into the animal clinic, and this was the Lord's way of removing the incursion.

Blessings...

R. C. Theophilus
