

Letter 894d  
**DREAM**  
**Riot Defense**  
2021-12-25

Dear **Yeshua**,

**Saturday, 4 December 2021, 12:58 PM**

At about noon I woke from a nap. Just before waking I had a dream.

**I DREAMED THAT:**

I was at a place which reminded me of the property and house where I grew up. A Lady was with me, who I knew had something to do with Law Enforcement or the Law, such as an Attorney, or perhaps a Police Investigator.

I could see that there were other people on the one-acre property, some distance away from where the Lady and I were standing. The Lady and I were close to the detached 12' x 12' bunkhouse Cabin which had served as my bedroom for several years.

It seemed as though there was a riot going on, so I wanted to seek refuge in the Cabin. The Lady and I went into the Cabin, and at the same time I was asking her, and she was answering me, about the legal points of Self-Defense, because I had a Firearm with me, and I wanted to be able to defend both the Lady and myself from the rioters.

The Lady gave me a few points on the various legalities of self-defense.

**END OF DREAM.**

**Post Dream Analysis Says That:**

I didn't sleep good at all last night. I went to sleep at my usual time of 9-9:30PM. Then I woke up at 11PM, and I couldn't get back to sleep until 1 or 2AM. I woke up again at around 3AM, took pain pill and went back to sleep, and woke up again about 5AM, and have been up ever since.

Finally I was able to take a nap, from which I awoke with this dream.

I felt like I had slept well, but I'm still tired and sore from the previous conflict yesterday in Letter 894a about Secretary Buttigieg. So I think this dream may have something to do with helping me overcome yesterday's battle damage.

My angel family and I are fixing to watch the Star Trek movie Star Trek: Generations. Hopefully this will help get my mind off of the fatigue of battle.

Blessings...

R. C. Theophilus
