

Letter 898  
**MIRACLE REPORT**  
**Who Turned On The Christmas Tree Lights (Again)?**  
2021-12-13

Dear **Yeshua**,

**Monday, 13 December 2021, 9AM**

A very remarkable thing happened...

Last year, in [Letter 867](#), I report that **last year** someone turned on our Christmas Tree Lights. Here is a quote:

*Someone Else must have turned on the Christmas Tree Lights\*\*.  
Someone who could move intra-dimensionally,  
remaining invisible to the earth-space light spectrum,  
and be able to push the control buttons with exceedingly great speed,  
all while (M) was facing the Christmas Tree, and perusing on her iPad.*

**This year** it happened again. Only this time I was an eye witness to the event.

I had wakened about 4AM, and was in the Family/TV room at about 4:30 with my toast and coffee. When I first walked into the TV room and sat down, I noticed that the lights on the Christmas tree were off. The tree sits to the right of the TV, so I can easily see both at the same time. I then decided that I didn't want to get back up from my chair at that moment to turn on the lights. I could easily turn them on later when I felt like it.

While enjoying my breakfast, I was also watching a Dr. Chuck Missler Bible Study about Leviticus on U-Tube. After a few minutes into the video, at roughly 4:40 AM, I noticed that the Christmas Tree Lights were ON!

And I remarked:

**"WHO TURNED THE CHRISTMAS TREE LIGHTS ON?"**

Then I remembered that the same thing happened last Christmas (see Letter 867 above).

To be clear, I DID NOT see the lights come on. My attention was focused either on the TV show, or on my food. I suspect that it was during one of the brief moments that my eyes were turned toward my coffee or toast than one of my angelic family members turned on the tree lights. And I was still a little groggy from waking up, so it took a few seconds for the miracle to register in my mind.

But here we go. Miracles are becoming commonplace in my house. As well they should be!

Blessings...

R. C. Theophilus
