

Letter 898b
DREAM
Survivor Alone
2021-12-25

Dear **Yeshua**,

Thursday, 23 December 2021, 4:45AM

This is a dream report. I actually had two dreams. I woke up about 11PM, from a terminal dream which had a fair amount of detail, of which as of this recording I have no memory, other than I wanted to remember the dream, but I had to go back to sleep.

Then I woke up at about 3:45AM from a second dream.

I DREAMED THAT:

I was Hispanic. My house had burnt down, and my wife and children had all died in the fire. I alone had survived.

I didn't know how I survived the fire. My neighbors and friends were concerned about my situation.

There had to be an investigation to find out what caused the fire, to see whether there was foul play at work. Being the only survivor, I was the prime suspect. But I knew I hadn't done anything to start the fire. I was telling my friends that I was confident at being exonerated by the forensic investigation, and that my name would be cleared.

After the investigation was over, I was cleared of all suspicion. But during the course of the investigation, I was keenly aware that there were certain fibers which I knew were important to the investigation, and that it was important to me that the investigation was done properly and thoroughly.

END OF DREAM.

Post Dream Analysis Says That:

I woke up feeling tired and part of my neck was a little sore. But it did not get any worse than that. Thank You Jesus.

Blessings...

R. C. Theophilus
