

Letter 902  
**TERMINAL DREAM**  
**Introducing Doctor Tumor**  
2022-01-07

Dear **Yeshua**,

**Tuesday, 4 January 2022, 4:39AM**

This is a dream report. I woke up at 11:30PM last night from a dream.

**I DREAMED THAT:**

I had developed a large tumor on the skin on my lower right abdomen area, almost on my right side. I was on my way to see my doctor about this tumor. I went to my doctor's house rather than his clinic. I went into the living room area, where I saw my doctor sitting directly on the carpeted floor.

Behind my doctor is another man who is crouching down on his knees directly behind and facing his my doctor's back. I also see another man who is sitting directly on the floor, right in front of and facing my doctor.

The man who is behind the doctor is about his same size, and is massaging his shoulders. The man who is in front of the doctor is smaller in comparison.

The two men who were with my doctor did not appear ugly or malformed. But I knew they were evil.

As I started to talk to my doctor about the tumor, it suddenly got bigger. I then wanted to have it removed.

I was not speaking verbally with anyone, but I seemed to be communicating telepathically with them.

**END OF DREAM.**

**Post Dream Analysis Says That:**

As I was waking up, I knew I did not have a tumor on my physical body, but I wondered if I had a tumor on my spirit-man. But right then the Lord Holy Spirit assured me that I did not.

According to the Lord, all three men in the dream, including the one who looked like my doctor, were HR. This dream was His way of terminating the head fallen angel of HR, and two of his helpers, who were assigned to the destruction of my own doctor (P33).

This dream also comes at the same time that I am requesting an increase in my daily dosage of Vicodin from three tablets daily to four. I had this quantity before from my previous physicians, but I am a relatively new patient with Dr. (P33), and he wanted to start me out at a lower dosage to see how I responded.

Blessings...

R. C. Theophilus
