

Letter 903
Real Sore & Grocery Store
2022-01-07

Dear **Yeshua**,

Tuesday, 4 January 2022, 8:23AM

(This is an abridged and edited transcription from a Field Report audio note.)

When I was recording the audio note that became Letter 902, I was sitting in my chair in the TV room. When I went to get up from the chair, I realized that two muscle groups were exceedingly sore and stiff, and for a few seconds I could hardly walk due to the sudden immobility brought about by transient but unanticipated jabs of pain. The muscle groups were at my left hip joint, and at the lower right of my spine.

After a few seconds of standing still, I took a few steps, then proceeded into the kitchen, still being hampered by the receding yet still severe pain.

The primary causality of the soreness was apparently from the dream I had this morning and had just audio recorded. In the dream I had been interceding for my new personal physician (P33), and against HR assigned to him.

I didn't wake up with sore shoulders, which I normally do after wrestling a dream. In this particular dream, the people I was engaged against were all sitting on the floor.

I find it interesting that those are some of the muscle groups that I am sore, as if I had been sitting on the floor for an extended period of time.

Also last night as I was going to bed, the severe soreness in my right shoulder had returned which had originated from an attack about a month ago at a gas station (see Letter 894a).

The pain had returned due to my intercession for a situation in town. A Christian Brother and long-time Grocery Worker in this Valley had just announced on ZOOM Church his retirement after 40-plus years in the grocery business. This left a hole in spirit-space where he worked. Shortly after I heard of his departure, I MIPPed the situation, which is what put me into a position of intercession.

The MMIP is a way to fill an empty space with the the Lord's Presence, so that the HR can't fill it with their presence (see Matthew 12:43-45). This aggravated the injury which was still in the process of healing. I was also interceding for my Seer friend in the Netherlands. This also made me real sore.

The Lord Holy Spirit reminded me to take the position of Forgiveness. Soon afterward I began to feel better. Thank You Jesus.

From an analytical standpoint, I find it interesting how different conflicts with HR affect different parts of my spirit-man, which then manifest in a variety of different pains in different parts of my physical-man.

Maybe after I am finished with being an intercessor I will have enough data to write a compendium on what spiritual assaults result in what pains.

It will be interesting to find out.

Blessings...

R. C. Theophilus
