DREAM

Jesus Tames The African Tiger

2022-01-06

Dear **Yeshua**,

Thursday, 6 January 2022, 5:37AM

I woke up at about 3AM from a dream.

I DREAMED THAT:

I was with a Negro Lady. We were together on property which was very similar to the 1 acre wooded property where I grew up. We were at the eastern edge of the lot, which was higher in elevation to the adjoining 5 acre lot. There was a cyclone fence on the property line separating the two yards, and the Lady and I were both standing at the fence looking onto the property below, which was at least 40 feet down a sloping embankment. The slope was steep, but could be safely climbed up or down with appropriate care and good shoes.

Just then I noticed an African Tiger walking along on the yard below us. It was a large, fully-grown Tiger, with a Bright Orange coat and Very Black stripes, and it was walking out toward the road. This startled me because I knew that tigers of any kind were not indigenous to where we were located in Western Washington.

I could see that if the Tiger reached the road, it could then easily walk around the fence onto the property where the Lady and I were at. I pointed to the Tiger and remarked to the Lady that we should take precautions. At first the Lady did not see the Tiger, but after my pointing it out more directly, she could see it.

Before I could speak any further, the Tiger had reached the yard we were on and started walking toward where we were standing.

I could tell that we had no options for escape, so I covered the Negro Lady with my body and prayed by calling on the Name of the Lord, repeating these words in my prayer:

“IN JESUS NAME, IN JESUS NAME, IN JESUS NAME.”

Just then the Negro Lady says:

“OK LOOK. THERE’S A LION.”

The next thing I know, the Lady and I are laying in a bed together (fully clothed), in the same exact spot where we had just been standing. I continued to cover the Lady with my whole person, while all the time praying:

“IN JESUS NAME.”

I can hear the Lady say a few more words about the Lion, but then suddenly the Tiger jumped onto the bed, and I thought right then that we were both going to be killed and eaten.

But then, the Tiger just lays down on the bed next to me. I then cautiously put my hand on the body of the Tiger, and felt it purring, just like a house-cat would do. So I started to pet the Tiger, and I began to realize that the Tiger is kind of happy, and doesn’t want to eat us after all. But while I was petting the Big Cat, I kept saying “In Jesus Name” over and over again.

END OF DREAM.

Post Dream Analysis Says That:

I woke up very tired and sore in my shoulders. Then I went back to sleep and woke back up at about 5AM. My shoulders were still sore and I was still very tired, like I had worked all night long.

Incidentally, today is the 1 year anniversary from the political rally which became a violent protest (and then called an “insurrection” by the Democrats) which occurred in Washington D.C. I don’t think it’s as big a deal as the Democratic Politicians want it to be. Instead, they have turned the day and memory of that event into an idol, which they now are worshipping. They also idolize their position in Government, and have turned Congress into a Religion. They even refer to the Capitol building as a “temple”. P. S. I was wondering who the Negro Lady was in my dream. When I asked angel Gabriella if she was the Negro Lady in my dream, she said “yes, that was me.”

Blessings...
