

Letter 904a  
**The 4th Pill Miracle**  
2022-02-28

Dear **Yeshua**,

The following account is derived from an audio Field Report.

**Thursday, 13 January 2022, 8:08AM**

What I am about to describe occurred within the last 3 or 4 days.

The pains of my spirit-man fluctuate depending on the nature of the battles and wrestling matches I get involved in.

These past few days I've been dealing with witchcraft by HR targeted against the Church, specifically against what I call the Scripture/Evangelical Churches and the Power/Pentecostal Churches ([see diagram here](#)). There's a lot which can be understood, and a lot more to be learned. And I have been taught a lot already by the Lord Holy Spirit.

But anytime I deal with witchcraft, my pain levels go up, and I feel generally sick inside, and I most often feel like I have been poisoned, and/or have not gotten enough sleep. All of these spiritual pains aggravate and increase my physical pains.

Because of these factors, in the last two months or so I realized that I needed to have my hydrocodone pain pill prescription increased from 3 pills per day up to 4 pills per day. Four pills was my old prescription for many years, but after I retired, I twice had to change medical insurance, and physicians. Within that process I terminated altogether my Vicodin prescription each time, for about two weeks.

This means that I had to re-establish with two different doctors in succession my ongoing need for pain pills, in addition to my two other maintenance prescriptions for hypertension and high cholesterol.

The first doctor wrote my prescription for 4 pills daily, but when I went to the second doctor for the first time, (and with whom I now continue as his patient), he initially wanted to give me only 2 Vicodin tablets per day. I asked him at that time if he would be willing to increase it to three, and he agreed.

Recently I sent an email to my latest doctor, indicating that I would like to increase from 3 to 4 pills. He responded saying at he wanted see me in person, before he would consider increasing my dosage. Narcotics are considered a high-risk medication for addiction and abuse, and a certain amount in inquiry is made of the patient to ensure he is not in danger of becoming addicted.

I have an appointment set up for next week. But in the meanwhile, I have really high pains to deal with.

But here's what's interesting. Three days ago I was sitting on my bed, and while looking down on the floor I saw a Vicodin tablet.

So I say to myself, "whoa, where did that come from?", and I thought maybe it fell out of one of my pill containers, of which I have three (monthly/weekly/daily) next to my bedside.

But I recounted all the pills I had in supply, and found none were missing. The pill on the floor then became an “extra” pill. I mused again to myself, “where did that come from?” I immediately put the extra pill into my daily pill box for later use, still wondering where it came from.

Then, the next day, having the same high pain issues, I found what seemed to be another extra pill in the chest pocket of my t-shirt, the one in which I lounge around the house. Typically, when I wake up in the morning, I will grab a pill from my daily pill box and put it in the t-shirt pocket for when I get out to the kitchen so I can take it with a drink of juice or something.

But this was mid-day. A pill shouldn't be there. But it was. Did I put my morning pain-pill in my pocket and forget to take it? I have done that in the past, but only once or twice that I can remember.

Once again, I did a pill count, and found that this too was an extra pill from “somewhere”.

The reason I am bringing all this up is because before I approached my doctor for an increase in my prescription, I had inquired of the Lord Holy Spirit as to if I should even ask for an increase.

The Lord had then said in response to my inquiry:

“YES, I WANT YOU TO HAVE FOUR PILLS.”

So, that is Yahweh's will. He is willing that I should have 4 pain-pills per day.

Essentially, for two days in a row, I had four pills for both days, when I really needed them. And I think the Lord is underscoring His Word with that.

So now my question is, does this constitute a miraculous intervention? Did Yahweh twice create an extra pain-pill? Or, were they tablets that I somehow missed, forgotten to take, or dropped on the floor?

I'm gonna go with the miraculous. Why? Because when I did my pill counts, not including the pills that I discovered, my pill counts were accurate. So I wasn't missing any pills to begin with. Both times the pills that I found were extra, over and above my accurate count. One extra pill each on two successive days.

In my estimation, the likelihood of this being a miracle is really, really high. And the likelihood of this being due to my dropping or misplacing a pill is really, really low. The reason why I don't go “all in” for this being a miracle for “fact-certain” is because I have yet to verify this with the Lord one way or the other.

Perhaps someday I will inquire of the Lord to confirm this. Or, I may just leave it unconfirmed. Something for the reader to ponder over. Besides, I have had plenty of other bone-fide miracles in the past, which I have already documented. See Letters [316](#), [867](#), and [898](#) to name a few.

So, what's wrong with having a continuing quandary to pore over once in a while?

Blessings...

R. C. Theophilus
