Dear **Yeshua**,

This Letter is an edited transcript of a field report.

A number of things happened today that were significant. The first thing is that I got the artwork which represents BoKAE Idea #29 completed. The artwork itself is produced by (CS14), the Artist Lady I work with, who draws the artistic ideas which the [Lord Holy Spirit](#) gives me to share with her. She draws pictures from the ideas, and then I suggest modifications and adjustments.

For Idea #29, I drew in the hoses, and inscribed the copyright notice. I got all this done, and posted the finished drawing up to the websites.

After this I got cleaned up, and at about 10AM I decided to head into town for three things:

1. A stop at the veterinarian clinic to pick up supplies for one of my dogs.
2. A stop at a fast food cafe to get a burger and fries.
3. Take the burger and fries up to PraiseTree to celebrate finishing Idea #29 ([click here](#)).

While I was driving on the way into town, I received a phone call from my local gun store saying that the 9MM Smith & Wesson pistol had arrived, and I could come in and fill out the paperwork in order to finalize the purchase.

Idea #29 are two new weapons which the [Lord](#) gave me about a couple weeks ago. So the timing of the phone call from the gun shop was prophetically significant.

Blessings...
