

Letter 909a  
**The Pain From Hell**  
2022-04-02

Dear **Yeshua**,

**Saturday, 2 April 2022, 1PM**

In [Letter 909](#) I testify regarding a dream I had in which the [Lord Holy Spirit](#) destroyed the three HR Houses of Evil in the Washington State Capitol, as listed in Exodus 22:18-20.

In this Letter I would like to describe what happened next.

[Letter 261](#) references a surgery I had in February of 1996. This surgery was needed to remove some calcified tissue which had surrounded my left hip, and caused a reduction to my range of motion. During the operation, the surgeon saw that the gluteus minimus muscle had died, which he excised to prevent any further necrosis.

It seems that when Satan touched my body to injure my flesh and kill whatever he could, he also bruised my spirit man in the same area.

In the years since Letter 261, the [Lord](#) has explained exactly what Satan did to my body. And this most recent dream has further revealed how the Devil also injured my spirit man at the same time as my physical body.

On Thursday 31 March, the day after I had the dream in Letter 909, the area around where I had the surgery in 1996 began to become sore. And as the day progressed and into the night, it became more and more inflamed.

The pain became greater than any I had ever known from my injuries. It was unaffected by the Vicodin I took, and the pain medicines which angel Gabriel brings from Heaven seemed to only cause some minor abatement.

The pain was directly caused by my wrestling against the Three Houses of Evil. The stress re-injured the area of my spirit man which Satan had originally killed, but had healed over time.

I called on the **Name of The Lord** multiple times to help.

Finally, I was able to fall asleep.

The next day (yesterday), even though the pain had lessened, I requested via email prayer support from three Brethren who know my testimonies.

But it wasn't until today - Saturday, that this pain finally ceased.

There is another data point that I believe comes into play regarding this matter. Just a day or two before this dream, I had finalized a work of art which came from a very recent idea the [Lord](#) gave to me, only a few weeks ago. The artwork depicts two new weapons which are now available to us in our war against Witchcraft. [Here is a link to the picture IDEA #29.](#)

But here is yet another point of wonder. On the 19th of March, I published [Letter 908](#). In this Letter I testify to how the Lord is teaching me that my pains in this earth will result in a “better resurrection”. Wouldn’t You know that just a couple days after that, I was given an increase to that “better resurrection” with pain that was beyond belief.

Perhaps this means that my resurrection will be beyond belief as well.

Time will tell.

P. S. See also [Letter 413](#).

Blessings...

R. C. Theophilus
