

Letter 912a  
**A Return To The Assembly**  
**Part 2**  
*"You're No Stranger"*  
2022-06-14

Dear **Yeshua**,

One of the first meetings I attended at (U19) was a Saturday morning monthly Men's Breakfast. I had seen the announcement on the website, and was eager to participate in the hopes of finding in-person Kingdom of Heaven relationships with other brothers, which I sorely missed having at (U27).

So, on the indicated Saturday, I left home and made my way to the church building. I arrived a few minutes early, and walked into the lobby.

I then noticed that the main sanctuary was set up for what looked like a seminar type of meeting with round tables and chairs, and place settings on the tables.

Within moments I saw a Younger Man who had a key and was going in and out of the Janitors closet. Thinking that he might be part of the Facilities Staff, I went up to him and begin to ask about the Men's Breakfast. He did not seem to know very much about the breakfast, but rather began to explain to me about the purpose of the tables that were already setup in the sanctuary.

In the course of our conversation, I informed him that I was a "stranger" from the North Bend area. Almost immediately he looked at me and said these words:

**"WELL, YOU'RE NO STRANGER."**

As soon as I heard those words, I knew he was speaking a prophetic utterance.

I knew this due to the fact that his reply was immediate and without any hesitation, and that we had never met before, combined with the witness of the Lord Holy Spirit.

While the Younger Man and I were still talking in the lobby, another Older Man came in through the main doors, and began to ask about the Men's Breakfast.

At this point, the Younger Man began to wonder if there was some mistake on the Church's website calendar, since now he had Two Witnesses testifying to him about the schedule on the Church's website indicating that the Men's Breakfast was to be held on that same Saturday. While the Younger Man was still speaking with the Older Man, I exited the building and departed.

During the drive home, I asked angel Gabe if he would confirm my suspicions. I told him that I thought the source of the prophetic utterance through the Younger Man was none other than angel John (a.k.a. Breaker), one of the (U19) Church angels I had met six years before at a (U19) Church revival meeting which I had attended. (See Letter 505a).

The next Saturday morning, I took a chance and drove to (U19) again to see if the Men's Breakfast was being held. Sure enough. Within a few minutes I found myself in the basement getting seated with coffee, pancakes, eggs, and sausage.

And shortly after I arrived in the dining area, I saw the same Older Man from the week before come into the room. I was happy for him that he was also able to attend the breakfast.

Blessings,,,

R. C. Theophilus
