

Letter 912b  
**A Return To The Assembly**  
**Part 3**  
*Finding My Mom*  
2022-06-14

Dear **Yeshua**,

**Monday, 25 April 2022, 9AM**

One of the reasons the Lord Holy Spirit has for me in returning to (U19) is so that I can be re-united with my Spiritual Birth Mother, which is the Pentecostal Church.

But this return is not without collateral effect. My Church Birth-Mother had been abused in her Youth by unscrupulous traveling evangelists and various itinerant false prophets. She then became abusive toward me in many strange ways. I write about some of the abuse I suffered from her in Letters 04, 06, 06a, 67, 70, 238, 309, 331, and 337.

My own earthly birth-mother was also abused in her youth, which is why she became abusive toward me and my two younger brothers in similarly strange ways. Some of these instances are documented in Letter 06. Other events have yet to be documented.

In both my mom's case, and the Church's case, the abuse originated with rape. Spiritually in the Church, and physically with my mother.

Both of these crimes had gone un-reported until recently, and to the best of my knowledge, have yet to be adjudicated in Court.

These sins left large wounds in both Mothers, which in turn provided a large vector of approach for Satan to attack with all kinds of demonic assaults.

And I have again been the recipient of some abuse at (U19) since my return in October 2021. This abuse was in the form of verbal questions and statements designed to dominate me into submission by the one who was speaking to me.

Thankfully, the Lord Holy Spirit has kept these abusive contacts to a minimum. But I find that the old wounds from the past have been re-injured to some degree. I now sometimes cringe at the thought of going to any meetings at (U19).

But I go anyway, in order to accomplish our Father's will, which is to bring Healing to the Pentecostal Church.

**P. S.** The one comfort to me at the Church right now is (CB73). So far he has never been abusive toward me, and I don't have any reason to believe he will in the future. I consider him my friend, and I am learning that he can be trusted.

Blessings...

R. C.Theophilus
