

Letter 920b
Just Whose Tongue Is It Anyway?
*Part 2 - He Who Made It**

Dear **Yeshua**,

In Letter 04 I write about how, when I was twelve years old, I was taken to task and verbally abused in a Pentecostal Church for not speaking in tongues. This happened many decades ago, but I still have the memory of what happened. The circumstances surrounding this and other events like it trouble me greatly to this day.

While spending almost two decades talking with the Lord Holy Spirit about this matter, He led me to write a series of Letters which both identify and provide a solution for these problems.

Here I will list my grievances with the Pentecostal Church Pulpit, along with the Letters which address the grievance:

- 1) Mandating that people speak in tongues.
- 2) Manipulating people to say words in repeat of what was just spoken from the Pulpit.
- 3) Minimizing or ignoring sound, in-depth study of the Scripture.
- 4) Marginalizing and/or ignoring those who attempt to bring correction to the Pentecostal Church Pulpit.

These Letters are as follows: 67, 70, 76, 154a, 210, 238, 267, 268, 308, 309, 310–310b, 313, 331, 336, 479-480e, 497, 577, 803, 920.

My primary specific grievance against the Pentecostal Church is how (erroneous) doctrine is used to try to force people to speak in tongues, combined with peer pressure. This is also revealed in Pentecostal preachers manipulating the Congregation to quickly repeat a word without first obtaining their permission, or giving time for the Congregation to assess whether they ought to agree with what is being said.

The Pentecostal Church Pulpit does not own the tongues of the Saints of Yahweh. Jesus does.

Jesus owns the tongues His Saints. He alone is authorized to speak His words through His people.
