

Letter 925
End of Year Letter
—A. D. 2023—
2023-12-31

Dear **Yeshua**,

Tuesday, 26 December 2023, 6:55AM

For the last three years, ever since the Democratic Party came into power through the Biden Administration, I have not had the same energy to write my Testimonial Letters (Letters To Daniel) as I have had in previous years.

This has nothing to do with lack of content or writer's block. It is simply that in addition to my already existing disabilities from chronic pain issues, I wake up very sore and tired.

About all I can do for the first 4 or 5 hours of the morning is to sit at my computer and listen to Talk Radio and/or watch YouTube videos, while medicating my pain with hydrocodone.

This strange fatigue really started with the dream I had in [Letter 705](#), in which I began to oppose Witchcraft in more vigorous ways than I had previously. But as soon as President Biden took office, my waking up sore and tired became a daily occurrence. This increased pain level also effected my ability to walk on any regular basis, which, combined with my using food as a pain distraction, is why have I gained weight.

This interesting phenomena was prophesied earlier in a dream I had and wrote down, and which was subsequently illustrated in a drawing. The dream can be read at this link at [Letter 40a](#), and the illustration can be seen at this [link](#).

But here's a funny yet singular thing. In a unique way, I am actually grateful to some degree for the soreness, because it testifies to the verity of the intercessory opposition in which the [Lord Holy Spirit](#) places me as the instrument of **Jesus** in stopping and destroying the works of the devil.

The difficult part is that for the first part of every day, I am pretty much incapacitated either from soreness, fatigue, or both.

And some days the soreness and fatigue can last far into the late afternoon.

The reason why this got worse with the Biden administration is due to the Democratic Party's embrace of at least two of the three houses of maximum evil (see Exodus 22:18-20), including idolatry of money by child sacrifice (abortion), the idolatry of worshipping the climate, sexual depravity (LGBTQ+), and corrupting children through bearing false witness regarding boys and girls gender at conception (gender-changing).

These sins are overseen and enforced by the four echelons of evil spirits listed in Ephesians 6:12.

The degree of the collateral effect that I experience is determined by how many of the echelons I engage with at any given time.

And yet, even though I have written very little compared to previous years, (only about 21 Letters), I have not been negligent in documenting the dreams, visions, and experiences which the **Lord** brings my way. As of this Letter, I have more than 90 audio recordings waiting to be transcribed into Letters. If they had all been written, I would have over 100 Letters for 2023. This same applies to the three most recent years since I retired, A.D. 2020, 2021, and 2022 (see special note below).

It is my hope that by the end of 2024, I will have completed the Letters To Daniel. I have only 75 more Letters to go to 999, which, according to the **Lord**, will be the final Letter to Daniel.

But here is something interesting. About two months ago, the **Lord** gave me a new writing project. It is a weekly newsletter, where **He** gives me a **Word**. I then do some research on that word to see what **His** message is. It is kind of fun, since I never know in advance what the **Word** is going to be. The newsletter can be accessed at this URL: <http://www.theschoolofjesus.com/WFTW>

(SPECIAL NOTE: About six years ago the **Lord** led me in to a business relationship with an Artist Lady. After some negotiations, we came to an agreement that she would draw pictures based on my dreams and ideas as given me by the **Holy Spirit**. In about 2019, I realized that I needed some help transcribing my audio notes to text. I approached the Artist Lady to see if she would be willing to take on that extra task. She agreed, and began the arduous journey of listening to my recordings, and then typing them into a legible format. This has been very helpful to me, and some day as the **Lord** gives me strength, I can review the transcriptions and convert them into finished Letters. I owe this Angel a debt of gratitude. Blessings...
