

Letter 76
The Sheep And Goat Deception
2012-03-02

Dear Dan,

I am the oldest of three brothers and we are all the children our parents had, who remained faithful to each other for their entire marriage. My youngest sibling brother (CB18) told me something that he witnessed, which I have no reason to disbelieve.

This occurred while I was away for military training in 1976, at a church (U9) located in (L10), where my family attended for many years. The church building no longer exists, but some of the people get together from time to time.

I know first hand that the pastor of the church believed that speaking in tongues was the “oil” referenced in the parable of the Ten Virgins, so he was concerned that as many of his flock spoke in tongues as possible, otherwise they would be counted among the foolish virgins and “left behind.”

The following event occurred at a series of special evangelistic meetings with prophetic overtones and different speakers.

My middle brother (CB19) has been plagued with evil spirits for many years. He was referenced in the dream I sent to you early on that is not included with these Letters (see Letter 12f).

But it was something that happened at one of the meetings that was conveyed to me by (CB18) that is most pronounced.

At one of the meetings, the special speaker took a poll of the congregation. They were asked who spoke in tongues, and who did not. Then the evangelist had those who spoke in tongues sit on one side of the sanctuary, and the non-tongue speakers sit on the other. Once every one was seated again, the evangelist began to tell the congregation that those who spoke in tongues were the sheep, and that those who did not were the goats, and that they were under judgment since this was the “sheep and goat judgment” occurring in that service.

My brother (CB18) told me that after that meeting, our brother (CB19) was never the same. When I heard this report, which was told to me just a few years ago, I knew then, and have become more convinced by further evidence, that my brother was wounded in his spirit than to the point that it allowed demonic infection to “set in.”

(CB19) is on Social Security Disability (SSD) and Supplemental Security Income (SSI). He lives in subsidized housing. He dropped out of school at the eighth grade, but is very smart nonetheless. He is on psychotropic medications. The “medical industrial complex” calls his condition “delusional paranoid schizophrenia”, or “bi-polar.” The Scripture calls this demonic possession.

I have recently seen the “lead” demon manifest. And I am praying for the right time to have them all removed. It is my hope, and I see signs pointing in this direction, that this year will be the day of my brother’s deliverance and healing.

(CB19) recently told me of his \$7,000.00 credit card debt, which I'm sure he accumulated while under the influence of the demonic bi-polar presence in his life. So I pray that part of his deliverance will be a complete dismissal of all credit charges and satisfaction of all his debt.

In Jesus Name.

Blessings...

Romanus Theophilus
