

Letter 154b  
**VISION**  
**Satan Dethroned**  
2012-11-30

Dear Dan,

Not long ago the Lord gave me a vision while I was working.

I was a few hours into my shift doing the Friday night floor care routine. I dust mopping the hall just outside a couple of rooms in the (G6d) department. While I was sweeping past a certain vacant patient room...

**IN THIS VISION:**

... I saw myself go into the patient room, which also was Satan's inner chamber where he was seated on his throne. Then, I go up to the Devil, grab him by both shoulders and throw him off of his throne and on to the floor. Then I take his empty throne, pick it up and dash it to the floor after him, watching as it breaks into pieces.

**END OF VISION.**

Blessings...

R. C. Theophilus
