

Letter 200a
DREAM
My Brother's Deliverance
1999-10-24

In this dream I dreamed that....

I was with my middle brother for the purpose of driving out the demons from him. My Mom and youngest brother were also present, but just looked on and did not get involved. My father was not in the dream.

My middle brother resisted at first, and stuck me with a dirty needle that had infection on it. I ignored this and continued to take authority over the demons. After some time, I called the prayer partners at TBN for some support. After still more time, the demons finally manifested and came out. One I noticed took the form of a cleaning lady, complete with broom and dustpan.

There was an elevator at hand into which I was corralling the demons in order to send them back into the pit. He wanted to follow them in, but I prevented him and finally got the demons into the elevator and sent them on their way.

End of dream.
