

Letter 230a  
**Hot Pursuit**  
2013-12-30

Dear Dan,

In legal jurisprudence there is a doctrine known as “hot pursuit”. This doctrine allows law enforcement to enter jurisdictions not their own if they are presently in the act of pursuing a known criminal and in immediate chase. Our present ministry to the Lord on earth is predominately in the Pacific Northwest, with those exceptions as the Lord deems necessary. This is one of those exceptions. The Lord has put us in Hot Pursuit of the Armies of Satan and other of his resources which have been assigned to California.

This last Christmas was the worst Christmas I have ever spent with family, but it will lead to the deliverance of California from the same satanic armies that have been defeated most recently here in the Pacific Northwest.

(M)’s sister (P9) and brother-in-law (P9a), along with their two daughters, came up from (L3) to my in-laws house in (L7), like they have been doing for all the time I have been married to (M), to celebrate Christmas with family.

But in the last few years Satan has been building a crime syndicate in (P9a)’s life. According to my own observation along with clarification by angel Gabe, (P9a) has these three demons “in-board”; POVERTY, GREED, and an ABUSER that bullies and abuses others, mainly women.

The ABUSER I have witnessed, and the demonic attitudes toward money and wealth I have heard discussed. But the crime network Satan built in the last few years is separate from and functions independently of Moroni’s Mormon organization in which (P9a) and his family are Firmly embedded.

This Christmas morning, like the ones before, (P9a)’s wife and two daughters sang Christmas carols for the rest of the family, and (P15), a friend of (P9)’s (her old music teacher from High School) that lives in (L7) and who has been joining us for Christmas for over a decade.

But this time they did something different. One of the daughters opened with a prayer to their Mormon “Heavenly Father”, then proceeded to sing a hymn, then a sermonette on the Jews and the Birth of the Mormon Jesus. More songs, another sermonette, and an attempted closing prayer. I say “attempted”, because it was at that point the Lord made His presence known.

While all this was going on, we were all seated in the living room with the Christmas tree and all the presents under the tree, waiting to be opened. And then I started to feel the satanic pressure against my chest, upon my Breastplate of Righteousness. Oppression, Opposition, Deception, and other hosts of evil began to Fill the room.

Toward the end angel Gabe started his distraction technique with making some jokes and getting people to laugh. But (P9a) kept glaring at his wife and insisting that they Finish with the Mormon Prayer. At just that moment I looked (P9a) in the eye (we were sitting across the living room from each other) and said;

“WE DON’T NEED THE PRAYER. LET’S OPEN GIFTS NOW”,

and to which everyone else agreed, and some had already been asking for. So the closing prayer to “Heavenly Father” was not uttered. This has left the way clear for the Hot Pursuit Jesus will send with the Audio Prayer He has given us to pray.

After presents I went to bed, about 11AM. I awoke at 7PM and went upstairs where the rest had just finished eating dinner. Later on (P9) and (P9a) started talking about their part time business and how (P9a) gives “treatments” to his clients in California and Mexico, where he now travels frequently. While this was going on I went outside to have a smoke.

Just above where I was standing I could see into the living room through the window, and I could see (P9a)’s head and neck as he sat in the chair that was inside in front of the window. But I also saw a large, white angel standing next to him. I wondered if this was one of the Faithful, so I fired up the grill, localized it on the spirit, and saw him start to wither into a disabled heap. Before I could ask, angel Gabe said that the enemy angel was the “handler” for the three demons in (P9a), and was part of the crime network.

But back to the Christmas “service”. Toward the end (P9) was trying to figure out what music to play next, so I said to her while she was sitting at the piano,

“HEY, YA GOT ANY ROCK ‘N’ ROLL IN THERE?”

And people laughed at that.

The next day, (P15) said to (M) that during the Christmas presentation she was getting really upset about what was going on, but that the phrase about rock music really stuck with her and made her feel better (i.e. Hope was interjected into the mix).

So. Here we go again. (Star) Trekking into the darkness of California.

Blessings...

R. C. Theophilus

P. S. According to angel Gabe, whenever there is this much opposition so that I feel this kind of pressure against my chest, my spirit becomes injured and needs to heal. Not long ago angel Maiah removed my Breastplate of Righteousness and ministered healing to me in the form of Hope. I think this will need to be done again, and perhaps after any of these kind of operations.
