

Letter 243a
DREAM-VISION
Blinding Poison
2014-05-29
(Revised 2016-02-07)

Dear Dan,

Sunday, 7 February 2016, 1AM.

The Lord has lead us to revise part of Letter 243 Volume 5-14, and make an account of a dream-vision into a separate letter. It was in this dream that the eyes of my spirit-man were blinded by the poisons of hell. And it is from these poisons that my eyes are being healed.

Saturday 15 March 2014.

I woke up with the worst pain in my lower back muscles. This was after we interceded about a week ago for some people I don't even know. I have not written about this, and am not sure yet how the Lord wants this topic treated.

DREAM-VISION

But as I began to wake up, I saw in a dream-vision, in the distance, the form of a man, dressed in a black overcoat with a wide brimmed hat, as if trying to conceal his face. But I drew closer to him, to within an arm's reach, and I saw his face anyway. It was evil, grotesque, and wicked, and I knew in the dream by the Holy Spirit that I was seeing one of The Two Archangels of Hell, identified in Letters 239 and 240 Volume 5-14. His partner was standing off to the side, trying to hide, but I knew he was there.

Then I became awake.

In the dream I saw into the man's eyes. But he wouldn't look directly at me. He looked a little to one side, at one of my shoulders. I could see his that his eyes were twitching slightly, scanning from side to side to see as much detail as possible at what he was looking at.

Immediately after this my entire body became sore, not just my shoulders. Then as I got out of bed, all the pain began to settle in my lower back muscles. After asking her, angel Gabriella said that this pain would not go away with work, but would require **supernatural intervention**. This was the exact same pain that caused me to quit the job at (G2) in May of 2000.

But the Lord made a "pain-free oasis" long enough so that we were able to go to Church this morning at (U14), and afterward I went forward to be prayed for by one of the Pastors. So we had that base covered.

Sunday after Church, before I went to sleep, angel Gabriel put his hand on my lower back and prayed. When I woke up much of the disabling pain in my lower torso had gone, and I felt a lot better in general.

Coincidentally I had already scheduled a therapeutic massage treatment for Monday morning, so I am hoping that the Lord will apply a supernatural remedy at the same time that the LMP applies her human expertise to my human frame. I know that in the past, while my massage therapist is working, there are other Massage Therapists working at the same time.

I hurt because of the **Doctrine of Hot Pursuit**, discussed in the Letter 230a of Volume 4. When we are attacked we are allowed to defend ourselves, and like in the Six Day War, we get to “keep what we kill”. The spoils of battle. But when we respond, we do so with the intent of destroying all the works of the Devil, across and within all spectrums of human life. AVTOS. All the time, everywhere.

Blessings...

R. C. Theophilus
