

Letter 251
Between Here And Maryland
2014-05-25

Dear Dan,

(CB18), my youngest brother, lives and works in Maryland.

Over the past year he has been sharing with me how the Lord has been delivering him from the Spirit of Jezebel. Because of this he and I have been sharing together over the phone about the various curses and works of the devil that have been in our family. It then seemed good before the Lord not long ago for me to divulge the LTD website to him, and to share with him of my angelic associates, including angel Gabriel's triangulating activities.

I can tell that the last few times I have spoken with him by phone there is conflict at his end, "birds of the air" attempting to corrupt what he hears when I speak to him. Because of that I suggested that we pray first at the beginning of any conversation.

Saturday morning 17 May 2014 we spoke by phone, and did so for the better part of an hour. I could tell again there was stress at his end, even after we prayed.

Later on, at about noon, as I was fixing to drift off into sleep, I felt the spiritual poisons of Uday and Qusay affecting my spirit. Before I could even ask, angel Gabe started to explain that when I talk to my brother in Maryland, I am traversing spiritually the entire nation. And as I lay there I realized just how bad a shape the U.S. is really in.

It is obvious to me that there's a serious problem when legislators and judges redefine marriage - the image of God - to include depraved behavior, etc. .

A few days before this the Lord brought to my memory the exact words that I scrawled on a piece of paper (a mere scrap of information), that I brought with me to Dennys when I first met with you. It was my intention of finding out from the Lord whether I should even show it to you, but I remember that you grabbed the paper off of the table before I even had a chance to say anything, and didn't give it back. And I figured to myself that is what the Lord had in mind.

Over ten years later I remembered what I had written as a burden for these United States;

1. Repent because of abortion.
2. Remove the enemy from the land.

I think that of all the things that might be said or done regarding sin, it is these two things that the Lord wanted most in order to clean the Nation and save the U.S. from judgment unto destruction.

I remember when I was working during 2009, I would listen to a certain song by the group

Triumvirate, and during that song I would put before the Lord in prayer all things related to abortion. This was the same year that the Lord gave to (M) and me the two month paid vacation.

It is the mass shedding of innocent blood that opens the doors for all sorts of demonic incursion. Repenting closes those doors. But the evil that has already entered the house needs to be removed. That's why the angelic cleaning crews need to come in and take care of business.

Blessings...

R. C. Theophilus
