

Letter 256  
**Gabriel's Credentials**  
 2014-06-08

Dear Dan,

A long time ago I came across a Scripture that I have remembered. It is this;

**Righteousness** and **justice** are the foundation of Your throne;  
**Mercy** and **truth** go before Your face.  
 Psalm 89:14

When I started writing this memo, I did a word search in the Bible and found another Scripture like it;

The King's strength also loves **justice**;  
 You have established **equity**;  
 You have executed **justice** and **righteousness** in Jacob.  
 Psalm 99:4

In the days and weeks after 9 October 2013, the Lord spent a good deal of time healing and rebuilding the relationship that angels Gabriella, Gabe and I have. Within this process He is making our relationship "Greater, Stronger, Sharper" than it has ever been before.

While I had previously likened us to the Starship Enterprise, after the Lord started to rebuild what Satan was destroying, I began to see our new relationship like the Starship Defiant, from Star Trek - Deep Space Nine (see WIKI below\*). One of the reasons for this was that the Defiant was constructed in such a way as to have the warp coils built right into the main body. This new ship is more streamlined, with no warp nacelle pylons sticking out from the hull.

One of the results of this kind of love is that I became very jealous. There was no way I wanted anyone to destroy the New Life the Lord was gifting to us.

So, when angel Gabriel showed up in January of this year, and it started to become clear that the Lord was going to make him a permanent fixture in our house, I got irritated. I am typically not a "people person", so when another person arrived, well, I had a hard time at first.

And I started making all these restrictive parameters of relationship. Things like; "OK, but he has to stay in the family room." This was in response to Gabriella's wanting him to come into the bedroom when I let our two little dogs (Tansy & Pepper) down to play on the bed after I get home from work. And when I got off work, I wouldn't automatically let him ride home in the truck with us, but he was required to ask first. But all throughout that time I knew the Lord wanted us to relate to each other as Kingdom Brothers, in the Spirit of Love. So with the Lord's help, we gradually found a way to become friends and finally work

closely together.

But there was something else by which I knew that Gabriel was sent from God Almighty, and that he was not a deceiver.

Because of the two Gifts that are automatic in my life, the twin gifts of Knowledge and Discernment of Spirits, I sensed two things right off when Gabriel was at home with us watching the show **Intelligence**. I sensed an almost overpowering presence of the **Spirit of Justice and Equity**. This made sense, since, when he is in Heaven, **Gabriel stands in the presence of God**. And that's where he was, right before being sent to Earth this time. And I was reminded of the Scripture quoted above.

One of the things that I have hated at (G6) was **the lack of justice, equity, mercy, righteousness, and truth** that permeated the place. This originated from the first time that Christians living in (L3) became jealous of the Wealthy that also lived in (L3), thereby allowing a "**root of all evil**" to grow and flourish. Satan tended this garden of sin so that it's most vile effect was toward the most vulnerable. The sick and injured, and those that cared for them, at (G6).

Now, as I write this, I can tell there is Healing for the City, beginning at (G6), through the ministry of the Holy Spirit and executed by angel Gabriel and his People.

**This is happening**. And I am privy to other details from years ago that support my statement, and will send them to you as the Lord and time allow.

Blessings...

R. C. Theophilus

\*(Quote from WIKIPEDIA)

*"The Defiant is a prototype vessel for the Defiant-class warship, originally developed to counter the Borg threat. It is officially designated as an escort vessel to avoid giving the impression that Starfleet builds warships, as it is primarily a peacekeeping and exploration force. Following the Borg invasion, the United Federation of Planets approved a project committed to enhancing Starfleet's offensive and defensive military capabilities; the Defiant was the end result of that project. According to his statement in the episode "Defiant", Benjamin Sisko (Avery Brooks) was in charge of the shipyard where the Defiant was built and helped design it during his assignment to the Utopia Planitia Fleet Yards.*

*Although it was designed to be fast and highly maneuverable with powerful weaponry, the Defiant was '**overgunned and overpowered**' for a vessel of its size. **The ship's structural integrity field needed extensive modifications to keep the Defiant from tearing itself apart**. The ship was designed specifically for battle, featuring innovative pulse-phaser cannons and quantum torpedo armaments, in addition to photon torpedoes, standard phasers and a high-capacity deflector shield system. **Another asset is its ablative armor**, enabling the ship to sustain multiple hits from enemy weapons, even with the shields inoperable, with*

*minimal damage.”*

P. S. Recently the Lord Jesus issued to me a New Weapon. It is a pistol that shoots whatever I want it to. Right before he handed it to me I saw the three rounds He was loading into the chamber. They had the Word “life” etched on the shell casing. It is lighter, more streamlined, easier to use, more accurate, and more powerful than the Grease Gun I found while being held captive at Harborview in July of 1995. This year marks the 19th anniversary of the beginning of that conflict.
