

Letter 320
Getting On The Enemy's Nerves
2015-03-08

Dear Dan,

In late 1999, around the same time I began to see the spiritual realm, and the Lord began to reveal various enemy elements in and around (L1), I was also able to see the protection detail the Lord had sent, initially with angel Jesse, who were assigned to me for my safety. Almost all the time when I went anywhere I would see troops in various attire. But mostly dressed in the same BDU's that were current issue in the US Army at the time.

One of the things Satan would attempt to do would be to get the resources he had assigned to my wife (M) to prophecy through her against me. He would do this by getting her to say things that would be sarcastic in nature, yet infused with the hatred of hell. But I would know that it was an evil spirit speaking, not (M).

One day, while (M) and I were driving to a family gathering at (P11)'s house in (L3), I saw a BDU (Battle Dress Uniform) clad angel get on the hood of my truck, lay down in the prone position, and set up what looked like an M-60 machine gun, and point it right at (M). But the angel was not aiming FOR my wife, but was aiming AT the evil spirit that wanted to speak through her. Like Jesus speaking past Peter to Satan when He said "get behind me" to the Devil.

Another time I heard, either Jezebel herself or another fallen angel working for her, speak through (M). This was on our way home from seeing a movie in (L21). The movie was Galaxy Quest. On the drive home, I was resisting some evil spirit(s) that were attacking (G19), and right then (M) said almost these exact words to me;

"I'M TIRED OF YOU MIND-FUCKING ME"*.

This happened not long after I had restricted her parents from contacting us at home, so (M) was still pretty upset with me. What was interesting is that I had not uttered a single word verbally, from the time we got into the truck at the theater up to that point. But I do remember that angel Gabe had been instructing me on how to say certain words that would speak to (M), rather than aggravate any evil spirits that might be close by.

Blessings...

R. C. Theophilus

*When (M) said this I got the distinct impression that a Jezebel spirit was bitching through (M) at angel Gabe, since he and I together had been resisting any and all evil spirits. Jezebel just happened to be in the car with us at the time. Jezebel interpreted Gabe's authoritative thoughts of Liberty and Freedom as a "mind-fuck".
