

Letter 321  
**"I'm Going For Eight"\***  
 2015-03-08

Dear Dan,

Last December as I was preparing to write what became Letter 304 (Volume 514 - "THAT'S BILLION WITH A 'B'"), an interesting thing happened. As I would think with my angel family about what to write, whenever I thought about the 1 Billion Souls the Lord had promised to prophet Bob Jones for salvation, superimposed in my mind over the number "1" would be the thought and word "8". I would hear in my mind "8" at the same time I was thinking "1". This happened more than a few times, then stopped. This was so I would remember that event, because later on, about three weeks ago as I write this memo, Jesus began to elaborate on what He meant by saying the number "eight"\* when I was trying to say the number "one".

So, as I was thinking, Jesus, using the language of Poker said, and I am paraphrasing, that He was going to "see" Mr. Jones's 1 Billion, and raise him Three, for a total of Eight.

As I thought through all the implications of what Jesus had stated, I realized that there was no way that Bob Jones himself could produce eight billion more souls for salvation. But then after some more thinking, I further realized that it is our Father "which art in Heaven" that brings men to Jesus to be saved. And Jesus certainly can produce 8 billion more Born Again Christians.

So, Jesus will save the First Billion, which He will then "see", for a total of Two Billion. Then He will "raise" the pot another Two Billion, for a total of Four, and then He will "see" the pot again, adding another Four, for a total of Eight. He didn't say how long this would take. But this will happen according to His Word.

Blessings...

R. C. Theophilus

\*And as a sign of Good Faith, just as I walked in the door of Starbucks to write this memo, I overheard a conversation between two of the Baristas. One said something about there being **one** of something, and the other said there was actually **eight** of whatever it was they were talking about. The conversation was already in progress when I walked in, and just at the right time to hear the exchange about "1" and "8". This was also before I knew what it was we were going to write about.

\*\* There is actually more than this. It has to do with the Chrysler 300. There are prophetic words aplenty, just waiting for me to write them down.
