

Letter 354
“The Year Of The Whirlwind”
 2015-06-07

Dear Dan,

Saturday night 6 June 2015 we visited (U3) Church. This was the first time in about 15 years that we had been there. I have been listening at work to the audio of previous services online, and then seeking the Lord on whether to visit.

There have been a series of guest speakers in the past few weeks, with more on the way. Saturday night the featured evangelist was a man I had never heard of, (CB40). But I became interested because the promo email from (U3) stated that he had been associated with Bethel Church in Redding.

So, the Lord made the way for us to go. Now, I figured there was going to be more happening than just me sitting in a service, and that something “spooky” would occur. And sure enough, it did. Please allow me to explain.

Things were going good through the praise and worship section, which was first. Then some verbal announcements and short testimonies from various people. Then special prayer for both the Pastor and (CB40). It turned out that a daughter from each family share the same rare medical condition. So a joint prayer was offered to Jesus for their healing.

After that (CB40) was given the podium to preach. He advertises himself as a “revivalist”, so his message was designed to bring encouragement and to exhort the Body. But I could tell that he was stressed, and as he preached it became clear that he was worried and carrying a burden for his daughter.

After a minute or two of him talking there developed a brief time of verbal interchange between what he was saying and one or two of the Congregation. This was being done in the Spirit of 1 Corinthians 14:26. So, I had a word to append to one a Sister had just uttered. Rather than just speak forth, I raised my hand to get (CB40)’s attention.

He saw me and said words like “I’m not taking questions at this time”, uttered in a somewhat dismissive tone, and I could tell there was more going on at that moment than what was on the surface in the immediate Direct Denial of Service. So I spent the next few minutes analyzing and inquiring of the Lord as to the nature of that exchange.

A minute or two later the Pastor got up abruptly from where he was seated to go into the kitchen. As he went he clipped the camera tripod and knocked it over. Immediately these words came out of the mouth of the Evangelist;

**“THAT WAS A TORNADO. “THIS IS THE YEAR OF THE WHIRLWIND”
 THEY SAY, YA KNOW. AND SO (CB5) JUST PROVED IT””.**

and at that moment I knew the Lord had opened a door for me to speak, so I observed and offered the truth, and said;

“... BUT IT WASN’T BROKEN; ... THAT’S GRACE;”

and to my surprise (CB40) agreed with and repeated those same words. At that point I knew that the Lord had removed an evil spirit that was setting itself between (CB40) and I and replaced it with one from Himself, a Spirit of Agreement. And I could also tell that one of (CB40)’s angels was able to anoint him with Peace. This, along with Agreement is what I was looking for when I raised my hand to offer some Rhema Word earlier. Peace and Agreement in Christ.

And throughout the rest of (CB40)’s sermon, whenever I looked him in the eye I saw a greater Peace than before. But during the brief time that he was channeling the evil spirit I perceived a greater evil lurking behind that which was spoken. It is part of the Deception of the Last Days. And of course, I got sick later on at home.

Now, toward the end of the service there was a prayer line, and everyone got up to be prayed over and have prophetic words spoken. But I stayed seated on the couch, seeking the Lord as to whether I should go forward.

The Lord kept saying “no”, even after I begin to tell Him that I really wanted to go forward. But just toward the end the Pastor came and sat down beside me and encouraged me to go forward, and I knew that was the right time.

So (CB40) prayed over me and articulated some things that I already knew, along with a word of encouragement about my life in general. It wasn’t laced with evil, but with goodness.

After I got home I took a nap, which turned out to be almost 4 hours. After I got up and did some work, I could tell that I was doing to get sick. So I did what I usually do and after about three hours the sickness was eliminated.

Before I went to bed I purchased a Kindle book by (CB40). And after reading a little, both the fissure and vector which allowed the evil spirits to speak through him at the meeting became apparent. This fissure is paper thin and not easily discerned. It has to do with eliminating the word “THE” that is in front of the title phrase “The Holy Spirit”, thereby truncating God’s Scriptural title to just “Holy Spirit*”, and then turning both the acceptance and understanding of it into a non-Scriptural doctrine.

I understand why this has happened and will write more about this later.

*“Holy Spirit” is not the proper name of the Holy Spirit. This is a phrase that describes a state of being that belongs only to the Holy Spirit. Like the word “marriage”, the phrase The Holy Spirit can be properly used only ONE WAY, and for only ONE PERSON, hence the word

THE. Removing “the” from in front of “Holy Spirit” is essentially taking away from God’s Word, which is expressly forbidden in Scripture. This is what produces a fissure, which Uday & Qusay look for and exploit.

Blessings...
