

Letter 369
A Record Of Faith In Action
2015-07-07

Dear Dan,

I think this happened just after I quit my job at (G2), during the summer of 2000 when I didn't work very much.

At that time it was my custom to go up to PraiseTree Lake to meditate and seek the Lord, since I was still recuperating from the battles that I had endured while working for the (G2).

One day upon arriving at PraiseTree and getting out of my truck, I started to make my way to the waters edge, walking through about the same spot that I had some time earlier met Pike Bishop (angel Gabe) and his (very) Redhead female companion (angel Gabriella).

After coming around some bushes I saw the waters edge about 100 feet away. But I also saw some people standing in an area on the shore that I wanted to go, so I stopped for a minute to figure out if I should head in a different direction.

As I stood looking and thinking, I noticed what the people were doing. There were only four or five people, and they were all standing around a camera tripod with what appeared to be a video camera attached at the top. And standing in front of the video tripod assembly was another man dressed in a dark suit just a few feet away, facing the camera.

I was too far away to hear if anything was being said. But just before I turned to go in a different direction, I saw the man in the suit raise both his hands, as if to praise and worship Creator God, while the video camera was recording.

As I walked away, the Lord said that they were angels making a record of what I had done to liberate PraiseTree from Rattlesnake.

If this was a vision, then I was seeing something that appeared so corporeal that I could have walked up and touched the people and the camera.

Blessings...

R. C. Theophilus
