

Letter 378  
**Timing Is Everything**  
2015-07-23

Dear Dan,

Angel Gabriella has emphasized to me more than once about the perfect timing of the Lord in our lives, and especially how He takes great pleasure in revealing His will to us by syncing our mundane day to day activities with the absolute perfection of the Heartbeat of Heaven.

This timing became even more apparent with the beginning of the operation to take out the U.S. Powers of Witchcraft. Describing how this came about is so important to the Lord that He would have me document it in this letter.

I had known about the Edmonds Prince of Witchcraft ever since I had to deal with my mother in law, and the subsequent removal by the Lord of the Prince at her house in about late 1999 or early 2000. And I knew, after angel Gabe told me, that he was just one of five Princes along the West Coast (which also included the other States that are on the map I sent to you).

And then I learned about the Astoria Prince when we went to Oregon in 2014. So then I started thinking about the other three Princes and where they were at.

But the operation to overthrow the Powers, or I should say the completion of the op, was prompted by a podcast and subsequent series of books I purchased on Kindle. The last book on the list, "What Witches Don't Want Christians To Know", is the one that got my attention.

The Podcast I had downloaded at least a month earlier, and had it stashed in a playlist for when I got tired of music, which is seldom. But toward the end of December 2014 I listened to one of the podcasts that looked interesting.

The author, Mary Lake, was being interviewed on a podcast called View From The Bunker (vftb.net), about her book. The interview was really interesting, and the Lord reminded me of the main focus of His work in us at that time, the eradication of the Spirit of Witchcraft from the face of the earth. I purchased the Kindle book and read it a little at a time over about four or five days. And as I read, I started to get really pissed off, and wanted to do something about it.

So, with the leading of the Holy Spirit and authority of Christ Jesus, we put together the audio prayers that became Overthrowing The Power of Witchcraft. This strategy was designed to eliminate the flow of power from the higher echelons down to the rest of the Princes on the ground level.

It was our interceding for the Churches of and in California, combined with contending

directly with these Powers that brought about the twisting of the lower torso of my spirit man inside my physical body, which the Holy Spirit Himself straightened out one night while I was in bed.

The location of the predominate regions of Witchcraft came in intel from angel Gabe's CIA resources that had identified five powers of Witchcraft, each with five Princes. Coincidentally the five regions were already identified in a map, courtesy of National Geographic, that was sent to you in an earlier letter.

Here is the list of books that led to what we now call Operation Eradicate.
