

Letter 387  
**VISION**  
**The Terminal Angel**  
2015-08-30

Dear Dan,

Tuesday 25 August 2015 2:20AM

I was at work on the third floor, walking down the hallway to the break room to make some soup, when I saw this vision.

**In this vision:**

At first I was looking at what appeared to be a video screen showing the crosshairs of a weapons targeting system. The screen showed an aerial view of a cityscape, with the crosshairs lined up on a certain area in the city. Then the screen resolution changed to more detail, and I saw streets and buildings. Then the resolution changed again and I could clearly see the crosshairs line up in the middle of a single street.

The Street is right next to Broadway, on Capitol Hill, in the City of Seattle.

Then, I saw something land on the Crosshairs that were painted on the street. At first I saw the form of a man in a crouching position, and I was immediately reminded of a scene from the movie, Terminator 2: Judgment Day. In one of the opening scenes, a second Terminator, the T-1000, played by Robert Patrick, is dispatched to Earth through time travel, and materializes in a crouching position.

When the Terminal Angel stood up, I could see that he was about three stories tall. His body appeared metallic in nature, very much like the character "The Vision", from the movie The Avengers: Age Of Ultron.

At one point in the vision I was seeing his face from his left side, and he looked at me sideways, showing that the expression on his face was one of unmoving resolve. He could not be distracted from his mission, nor could he be changed or modified by outside forces.

His assignment is to TERMINATE the activity of the Power of the Reprobate Mind (see Letters 166, 167 Volume 4) in the United States, beginning on Capitol Hill in Seattle.

**End of vision.**

After I got into the break room and put my soup into the microwave, I sat down, with angel Gabriel next to me. And I began to ask him about the vision, and he told me that what I saw, happened as I saw it. So I was seeing what was happening on Earth in real time. The next night at work, as I was thinking about this vision, I saw again the same angel, and I saw fire coming from his mouth and two hands.

Blessings...

R. C. Theophilus
