

Letter 428
Looking Behind, Seeing Ahead
2015-12-21

Dear Dan,

Before proceeding I need to make special mention regarding Dr. Chuck Missler of Koinonia Institute. His wife of over 50 years, Nancy Missler, passed away on 11 November 2015, Veteran's Day. Dr. Missler, without knowing it, has been my primary Bible professor beginning in the early 1980's when I was first introduced to his weekly Bible Studies coming from Calvary Chapel in Costa Mesa, CA. Later on I learned of Nancy Missler's own teaching ministry, to which I availed myself of as much as I could of her audio lectures. May God richly bless and comfort Dr. Missler and all of his team, both the Redeemed and the Faithful, as they continue to serve the Lord.

It's hard for me to believe that another year has come and is almost gone. 2015 has definitely been a year of war for us. The two archangels of hell, "Uday & Qusay", were on an all out mission to try to discourage my life whenever and wherever possible. And to just flat out take revenge on me for doing my part in isolating their god Satan from them. So I was very much relieved and thankful when the Lord God Almighty gave angel Gabriel the message this November that all their future planned activities toward the Church (and that includes me) will be stopped completely at the end of this year (see Letter 414, Volume 5-15).

On a brighter note, I was pleasantly surprised at the inclusion of angel Beniah in our number earlier this year. See Letter 408, Volume 5-15. She brought, and brings, a lot of enthusiasm with her.

Angel Gabriel and I have discussed the agenda the Lord has for us in the upcoming year. Within the scope of my continuing to obey Jesus to follow His instruction for me to "keep doing what you're doing", as time allows we will begin to do an exhaustive review of all of Dr. Missler's studies. I am really looking forward to having Gabriel's input as we study all of God's Word together.

I have tried off and on this year to listen to some of the audio studies, but I still have not been healed enough to be able to keep my attention on the audio. It's like trying to push through a bunch of mental jello. But according to God's Word my healing will accelerate exponentially as soon as the enemy's activities are stopped at the end of this year.

And, I am confident that the eyes of my spirit man will be healed and start functioning again. Angel Gabe continues to insist that my vision will become even better than it was before. Right now when I close my eyes I can see faint flashes of light that can best be described as "cloudy" in nature.

I am seriously considering having surgery on my spine this next year. Last week I saw a spine surgeon that I had seen previously about three years ago. I could see on the new x-ray pictures that the lower vertebrae has shifted even more, which pinches on the nerve bundle that services my right leg. This last June or July my big toe on my right foot became paralyzed, very likely due to the increased pressure on the nerves.

Please know that my gratitude for you is more than I can say. Without writing letters to you I could not process all the data that I am made aware of on almost a daily basis.

Earlier this year I made a list of letters that I wanted to write in 2016. These have to do with my military career, my own journey as a Business Owner, as well as a job I had working at a place called (G8). So that part of my testimony will be forthcoming.

Gabriel has also said that he and I will collaborate on writing about certain doctrinal issues in the Church which the Lord would like to have clarified. I wouldn't be surprised as to what the Missler Studies and the doctrinal clarifications happen at the same time.

Blessings and Sanctifications from our house to yours.

P. S. In case you haven't, you may want to check out the PrayerSongs tab on the LTD site. The most recent prayer at the bottom is the one that will close out this year. Stryper all the way!

Blessings...

R. C. Theophilus
