

Letter 438
Q&A With Gabriel Part 1
Healing
 2016-01-28

Dear Dan,

Tuesday, 26 January 2016, 6AM.

When I sat down and wanted to start writing this morning I began to get depressed. This wasn't the first time. It started right after I sent you the memo that became Letter 437 Volume 6.

Since then, whenever I wanted to start writing a new letter, I would begin to feel real tired and depressed.

So I asked angel Gabriel why this was. He said that in effect I am still suffering from all the attacks Satan had against me in my entire life, and that I am still in the healing process. What follows is an actual dialogue he and I had concerning this matter.

Me: "Holy shit Gabriel, how long is this fucking process going to take anyway?"

Gabriel: *"Very likely the rest of your earthly life."*

Me: "Oh great. Is this going to be in segments or something?"

Gabriel: *"Yeah, something like that. Except that the eyes of your spirit man will be the first to be healed fully, and soon."*

Gabriel: *"And remember, the intercessions you have engaged in have been across many spectrums of life and all of creation, so much so that you require specialized healing touches and medicines from Heaven."*

Gabriel: *"Right now Jesus is focusing on healing your inner spirit man and emotions. Later on He will focus on your physical body."*

Me: "OK. We have talked about this before, but it seems that whenever I find myself in intercession I get beat up. Will this delay the healing process any?"

Gabriel: *"No. From now on in your case, what Jesus heals stays healed. So now, whenever you intercede in prayer, you will be sheltered from any further injury."*

Me: "That's good. But I am aware of another brother who apparently lost his healing of MS because he went into rebellion. What will keep me from doing the same thing (see Letter 180 Volume 4)?"

Gabriel: *"The fact that not long ago you traded your own free will to the Lord for His. So you*

are, and will remain, unwilling to do anything that will steal your healing away from you. And besides this, I have observed your life for the past two years, and you sure don't strike me as the rebellious type. To the contrary. What amazes me is your level of obedience. That stands out with us angels."

Me: "As you already know, I am attending as often as I can weekly Church meetings for healing prayer. Should I continue?"

Gabriel: *"Yes. It's a great place to establish the testimony that Jesus wants to reveal in your life concerning His healing your war wounds."*

Me: "We both know that work is a good thing, and can be a healing process in itself. But in my case, (G6) has been damaging to me since I started. Truly, going to work there every day required me to enter through the Gates of Hell and into the Kingdom of Darkness. Do you think this will change, seeing how I have such evil memories associated with (G6)?"

Gabriel: *"This has already changed. It is your memories of the past that need to be healed. And with the recent resignation of the department manager who channelled Satan against you, this will make the healing process that much easier. Even the demeanor of the night Supervisor will improve."*

Me: "There's a whole lot of hope in your words. I pray the your words come true."

Gabriel: *"OK. We can hope and pray daily for good things."*

Gabriel: *"And remember. The advent of the Kingdom of Heaven is now more prevalent than ever, thanks to your obedient work and perseverance."*

=====

P. S. Dan, the following took place during the work shift that began on New Year's Eve night 2015.

... on one of my breaks, while in the parking garage smoking, angel Gabriel said that he was going to put his fingers on my eyes. So, after we walked over to the concrete retaining wall to look out at the horizon, I closed my eyes and he did just that.

I felt him put his spiritual fingers on the eyes of my spirit man, which corresponds with my carnal eyes. I felt my eyelids move briefly, and when I opened them it felt as if some salve had been applied. He said it was eye salve from Heaven (see Revelation 3:18), and that it would begin the healing process of my eyes.

Blessings...

R. C. Theophilus
