

Letter 446
TV Re-Runs Never Die
They Just Get Refurbished
2016-02-24

Dear Dan,

Some time ago the Lord wanted my angels and I to watch Star Trek - The Next Generation together as a family.

I had already seen each episode when it originally aired, and then I watched the series again sometime after it first started streaming on Netflix. And of course I had seen various episodes throughout the years as re-runs.

So, I was a little reluctant to want to watch the entire show again. The thought of it made me bored.

By another thought occurred to me. "What if", the thought said, "I prayed to the Lord that He would make the show seem fresh and new, like I had never watched it before"?

So I prayed a prayer to the Lord to that end, and well, Jesus did just that. The Holy Spirit renewed my "viewer's certificates" so that I could see each and enjoy each episode, as if I had never previously viewed them. I think I liked the show even better that before.

We watched all of ST:TNG, and then all of Star Trek - Deep Space Nine (ST:DS9)

Now we're working on X-Files (both old and new), with the same effect.

This is way cool. We thank you Lord Jesus for making this possible. And I am very grateful. We look forward to seeing even more TV re-runs with the same miracle.

Blessings,

R. C. Theophilus
