

Letter 459
Jesus - Cure For The Common Cold
*(And Diabetes, Cancer, Food Allergies, Obesity,
 And All Other Ailments)*
 2016-04-05

Dear Dan,

Saturday, 2 April 2016, 6AM.

Beginning almost two weeks ago and continuing until Wednesday 31 March I felt like I was about to come down with a cold. As with previous colds I have contracted, this presented itself with various odors starting to smell “funny”. Then I would typically get a tingle in the back of my throat, then a sore throat, then a cough along with increased mucous.

For almost two weeks it just stayed at the “funny smell” stage. But then, as I was laying in bed Wednesday morning trying to get to sleep, the tingle at the back of my throat started, and I had to go get a cough drop.

At this point I was getting frustrated because I wanted to get to sleep, and I didn’t want to get a cold. So I inquired of the Lord on what to do, and He said:

“SAY; “YOU OLD COLD, GO AWAY””*.

So I did just that, and when I woke up the next day, all the symptoms were gone.

In the past before my motorcycle wreck, when I was working at the school district, I would welcome a cold because it gave me a valid reason to have an extra day off from work. And up till this event, I would welcome getting a cold because it became a distraction from my chronic pain issues.

But, the Lord is teaching me what it means to walk in what the Pentecostals call “divine health”. I think this is a better way to live. Now, if only I could talk my employer into issuing divine health tablets instead of flu shots, this would be good. As it is, I elect to get the flu shot because it is easier than having to wear a mask for the two or three months of flu season. So now when I go for the flu shot, I just invoke the Scriptural protocol that says:

“... and if they drink any deadly poison, it will not hurt them ...”

Mark 16:18b

Last year when we were fighting witchcraft in earnest, the enemy tried on numerous occasions to infect me with cancer (because I smoke), food allergies (see Letter 383 Volume 5-15), and before that diabetes (see Letter 199 Volume 4), and since then obesity (see Letter 457 Volume 6). With leadership of the Lord Holy Spirit, and with a little help, or maybe a whole lot of help, from my angel friends, I was able to resist each one. Obesity will be dealt with in its own letter very soon.

I think I will just call this kind of health the effect of obedience to Scripture, or:

THE OBEDIENCE EFFECT.

*The phraseology that the Holy Spirit used gave me pause, and I was more than a little dismayed. I will explain why in a future letter.

Blessings...

R. C. Theophilus
