

Letter 492
"The Trees Are Singing, And It Sounds Like Water"
2016-07-17

Dear Dan,

Sunday, 17 July 2016, 7AM.

Two weeks after my surgery, on 12 July, I went up to PraiseTree. It was a nice sunny day, and I wanted to have a smoke and enjoy the presence of our Creator God.

As I was leaning up against the log that separates the driveway from the sidewalk, I was listening to the sounds of Creation.

The wind was blowing through the trees, and I was reminded of how PraiseTree received its name so many years ago.

Then these words occurred to me in my mind from angel Maiah:

"THE TREES ARE SINGING, AND IT SOUNDS LIKE WATER".

And the sound of the wind blowing through in the leaves of the trees really did sound very similar to the rushing sound of streams of water flowing quickly through a mountain valley.

This is the sound of the Water and the Blood that flows from Heaven onto Earth at PraiseTree. And the Trees sing because of this, and are made glad.

Blessings...

R. C. Theophilus
