

Letter 513  
**DREAM**  
**Bright Light Beacon**  
2016-09-19

Dear **Jesus**,

**Monday, 19 September 2016, 5AM.**

I slept well last night, but I woke up feeling the muscular soreness that I feel when I have been engaged in spiritual warfare in my sleep. Angel Gabriel confirmed this when I asked him. He said that it had to do with politics, specifically the United States preparing to elect new national leadership.

But just before I woke up I had a dream.

**I DREAMED THAT:**

I was looking across a field or body of water at a City. It was dark out, but I could see in the skyline the beginning tinges of the Blue Twilight Just Before Dawn, so I knew that the Day was not far off.

As I looked, and just as I was waking up, I saw to my right a Bright Light, like a spotlight, or more like the light on top of a Lighthouse. As soon as I saw this Beacon, I woke up.

**END OF DREAM.**

Blessings...
