

Letter 520  
**The Perceiver**  
2016-10-02

Dear **Jesus**,

I left employment as a school custodian in September of 1990 to pursue running the janitorial business my friend (CB1) and I co-owned and operated together.

About a year later I came into relationship with another Brother (CB46), who ran his own business as a tree-topper.

He was also an intellectual and a scholar, and a few years later gave up private business to pursue a career in academia.

As part of his pre-school studies, he was reviewing some personality profiling materials, such as Myers-Briggs. Some of these were from a Christian standpoint, and were oriented toward revealing one's spiritual gifts.

We were talking one day, and I said that I would be willing to volunteer to be one of his subjects in any testing he might want to pursue.

So, at some point in time I took the Myers-Briggs test to see what kind of personality God had created me with, and another test that was supposed to show what kind of spiritual gifts He had given to me.

I don't remember all the categories, but I do remember that my highest score was that of "perceiver". (CB46) then went on to say that a "perceiver", in scriptural terms, was someone who would be called a "seer", or prophet.

About a year after this, (CB46) said that he and his wife were moving out of the State so he could further pursue his formal education.

After hearing about his upcoming move at one our meetings for a meal at a local restaurant, I asked a simple rhetorical question.

"WHO WILL TEACH ME?",

I asked him one day, I was a little downcast, because he and I would sit in various coffee shops and talk about things relating to the Kingdom of Heaven. Things that I never learned in Church or Sunday School.

It was not long after my asking this question that You took over my instruction in the ways of the Kingdom. And it was a short time afterward that I started seeing You, in the spirit, sitting across from me in restaurants.

My seeing You like this was preceded by the Holy Spirit bringing to my memory the Scripture where it says:

*"I will never leave you nor forsake you."*

Hebrews 13:5c

I remember You and I would have "thought conversations", not unlike a Vulcan mind-meld.

That was the beginning of my learning how to hear Your voice clearly and without any interference from outside jamming.

Later, after you introduced me to angel Gabe and the others, I learned I could communicate with them in the same way. See Letter 154a Volume 3.

Gabe is much better now, but back then, when he and I would get into a conversation, he would start running off at the mouth and it would take a miracle or something to get him to shut up. But all seems well now. Maybe he found some "inner-peace" or something that helped him to calm down.

Blessings...

R. C. Theophilus
