

Letter 531
A Notepad and Pencil
2016-10-24

Dear **Jesus**,

Some time ago I began the habit of carrying a notepad and pencil around with me wherever I am. This is so I can write down any “scraps of information” You might send my way at any given moment.

I do the most note-taking while I am at work. This is because I have ample time to think about things You say while I am working.

Quite often these momentary fragments are the result of conversations I have with the angels You have sent to be with me. Please allow me to relay a portion of a recent mind-meld dialogue.

I was thinking about all that is happening regarding how much deliverance is going on at present, what with immobilizing Satan, and then sending Michael the Archangel to remove the rest of his angels.

While I was considering this matter, I think it was angel Gabe who said these words in my hearing:

“JESUS DOESN’T WANT HIS PEOPLE
TO HAVE TO CONTEND WITH THE ENEMY.
HE WANTS THEM TO BE FREE
TO WORSHIP THE LORD GOD ALMIGHTY”.

I wrote down what he said just as You see it above (but in lower case).

I have to restrain my own heart at this point, because I am listening to Bethel praise music (Our God Reigns) as I write this, and I would like to get a little demonstrative both about what I am writing and hearing.

But then there is the Peanut Butter Lady. I will talk about her in the next Letter.

Blessings...

R. C. Theophilus
