

Letter 533
Calling An Audible
2016-10-30

Dear **Yeshua**,

There was a particular sign that angel Gabe developed to authenticate whether it was actually him I was meeting with (in Stranger or Spirit mode - see [Letter 35a](#)). This came about in stages, and was only used a few times.

My recollection of what I am about to describe is not 100% clear. My memory of the sign itself is clear, just not the sequence of events in which the manifestation was used.

The sign Gabe used was sort of hiccup that he would cause me to have at certain times when I would be speaking.

The first time it happened is when I was listening to a song on the CD audio system in my truck. Gabe was in the truck cab with me (in spirit mode). Suddenly both the song on the CD and I hiccuped together at the exactly same time.

Some days later I was driving to the store or something. I picked up a man and woman couple who were hitchhiking a ride into town. They both got into the back of the truck. A minute later the same thing happened as before. Both me and the CD audio hiccuped at the same time. I knew then that the man in the back of the truck was Gabe, along with angel Gabriella.

This sign happened at least one other time that I can remember.

Blessings...

R. C. Theophilus
