

Letter 535  
**More About Angel Gabe**  
2016-11-04

Dear **Yeshua**,

In [Letter 35a](#), I write about having lunch with angel Gabe. I also mention the three modes of angelic manifestations on the earth as it is revealed in Scripture.

But I was reminded a short time ago that there were some other times I met angel Gabe, while he was present in Mode-1. The instances I am writing about happened at PraiseTree. There were other times that I don't remember clearly, or that happened in such a human context that it would be too hard to distinguish. But these two meetings are clear and singular in my mind.

One time I went up to PraiseTree to be alone with Jesus. As I walked around a bit I came upon a Ford Aerostar van. A Lady who looked to be in her mid to late thirties was at the back of the vehicle. The rear hatch was open, and she was sitting on the edge of the rear of the van, putting on a pair of in-line skates. She already had knee and elbow pads strapped on, so I figured she was preparing to do some skating around on the paved trail.

I wanted to be cordial and friendly, so I started to talk with her about what she was doing. In mid-sentence, I sort of hiccuped (see [Letter 533](#)). It was then that I knew that the Lady with the Skates was in fact angel Gabe in human looking form, or Mode-1.

Another time I had gone up to PraiseTree to be alone with Jesus. I pulled up into a parking space, and stopped near another car, a Monte Carlo.

I walked towards the lake's edge, and as I got close to the area that I wanted to be, I noticed a man with a camera taking pictures.

I started talking to him about photography, because his activity was reminding me of the pictures I had taken earlier of the PraiseTree area. I remember specifically asking if he had gotten into digital photography. He said that it was too expensive. Remember that this was in 2000. Digital photography was still in its infancy, and did cost a lot. He was talking about digital SLR photography. His camera was a film SLR with a telephoto lens.

I noticed his camera bag sitting near us, and that he had a can of pressurized air, so I asked him if he would blow off the lens of my Olympus 1.2 megapixel digital camera. He obliged. After that we parted company.

In addition to the above, I was also reminded of something else.

This happened at the same time Gabe and I had lunch together. It was something he said. After he ordered, he engaged in some casual chit-chat with the waitress. He said something funny that made her laugh. After she left to attend to other things the man (angel Gabe) said that it was his goal to get her to laugh.

I think the first two events at PraiseTree happened after the lunch encounter. By that time we were becoming closer friends. But we both were nervous. This was because we were becoming closer friends than any human and angel on earth had become until now.

Jesus is creating a new friendship between angels and humans, between one of His angels and a Christian, between angel Gabe and me.

And our friendship continues to grow. More later.

Blessings...

R. C. Theophilus
