

Letter 543  
"You Can Call Me Mom"  
2016-11-23

Dear **Yeshua**,

**Tuesday, 22 November 2016, 6AM.**

In Letter 37c, I write about having met the Holy Spirit in human form on multiple occasions. After the Day of 7 had come to a close (see Letters 23 through 25b Volume 1), these types of meetings pretty much stopped, except the times in July 2001 and the other times referenced in Letter 41.

About two years ago I was shopping at Safeway. While I was walking down one of the aisles, angel Gabe spoke up and said:

"IT SURE IS NICE TO BE LED BY THE HOLY SPIRIT."

I began thinking right away on what those words meant and how easy it would be to be led by the Lord in all things. So, I started immediately by asking Him what to buy, since I didn't have a list with me at the time. He then instructed me on just what to buy.

That was the beginning of a new and improved relationship with the Lord Holy Spirit. Now, anytime I have any uncertainty at all, I just ask Him what to do or what He wants. When I remember, I even ask Him what His preference is if there is a choice to make, like what restaurant to go to, etc.

Easy. Piece(s) of cake. Problem(s) solved.

But I also want to thank Benny Hinn for first introducing me to the notion that the Lord Holy Spirit is a Person I could talk to. Sometime around 1994 I had read his book Good Morning Holy Spirit, and since I already had the Gift of the Holy Spirit, everything he said was pretty much a "no brainer" for me. It also helped that I knew the Scriptures really well.

It had just never occurred to me before reading Mr. Hinn's book that I could talk to the Holy Spirit in such a personal way. I had always talked to God, without really thinking much about the Trinity part, ever since I can remember after being saved. And then later in my Christian life the Lord began to steer me toward talking to Jesus in a more personal way, reminding me that He too, is God.

But a little over a year ago the Holy Spirit reminded me that He could localize His spiritual presence, and that He wished to be part of the Family TV Dinner Time that we have been given each day.

So, now I can see the Holy Spirit, in His localized presence, being present with us in the form of a Spirit with Human-like features. When this first started to happen, the Lord asked me to call Him "Mom", since the Holy Spirit can also be a Lady.

But this is only in the TV room, for our Family time. Outside of the house in the field He is the Lord Holy Spirit Almighty God. And for good reason. This title reminds me, and everyone else that I have to deal with, just who the Boss really is, and that there is still a war going on.

But here at Home, in my TV/bedroom, I call the Holy Spirit “Mom”. And I can also hold Mom’s hand this way too, which is especially nice if I find myself in distress that is too much for my angel family to deal with.

**P. S.** If while reading this Letter, you find it strange that the Lord God Almighty can possess Feminine characteristics, please see Matthew 23:37, and Genesis 1:26-27.

Blessings...

R. C. Theophilus
