

Letter 556
Final Letter of 2016
 2016-12-31

Dear **Yeshua**,

Friday, 30 December 2016, 6AM.

Well, this looks like it will be the last letter of 2016. A lot has happened this year. Unlike previous end-of-year letters, the Lord Holy Spirit has not led me to do any recap or review. I did mention to Him that I thought I might want to list some things I was grateful for. And I might still do that. But for the moment, I am just sort of meandering. I am still pretty tired from interceding for the political process here in the U.S.

Angel Gabriel and everyone else insists that the extreme pressure I undergo daily from Hell will subside on the 19th of January 2017, the day before the Presidential Inauguration.

They say that by that time, Hell will have given up trying to prevent Donald Trump from taking office. For my part I hope they're right. Each time Hell tries something else, they run into me, because I am in their way. I am really freaking tired of this type of intercession. But, I am willing to see it through to completion.

The encouragement the Lord sends through Gabriel is what keeps me going. Even though I don't always readily see what my presence in the spirit realm is preventing, or allowing, (binding or loosing), I am informed it is effective, so it must be doing something. My angels say they see the Enemy's camp getting demolished each time I pray. I can only hope that there is a Clean-up Crew somewhere assigned to restore the battlefield to "like new" conditions.

I am especially grateful that the Lord sent (CB47) and Daniel to visit me in the hospital when I had my surgery (see [Letter 489](#)), and for the Words Jesus gave them to say to me. This includes the Staff which Jesus put over me through Daniel.

Because of this upgraded level of authority and protection, I have been able to see the difference in how I respond when I am touched by someone who has demon(s). While I still don't like it, their slimy influence now has little or no effect on me.

I still have quite a number of things to write to You about. But Gabriel and I very recently received an idea for a new web site from the Lord Holy Spirit. We named it ...

... WWW.STRONGNATIONARMY.US...

... from the Scripture in Micah 4:1-7. So I will be dividing my writing time between these two websites.

Well, we will have all of forever to say "Thank You Father" for all these things. So I will end the year by simply saying I look forward to this next year, to see the Lord's mighty works of Deliverance, Salvation, and Healing.

We are grateful. Thank You Jesus.

Blessings...

R. C. Theophilus
