

Letter 564  
**TURNGPT 11**  
**President Trump! President Trump!**  
2017-01-22

Dear **Jesus**,

**Sunday, 22 January 2017, 6AM.**

In November on Election Night of last year, after I heard that Donald Trump received a majority of the Electoral votes, I approached a co-worker at (G6), who is Filipino.

I went up to him, shook his hand and said:

**“PRESIDENT TRUMP! PRESIDENT TRUMP”!**

He responded with: “you’re one happy man”.

In the days that followed, I saw and heard on the news that those who were in favor of the Democratic Party were stunned at what had happened.

This really was not very rational, since with a two party system, having only one party win an election is a normal process.

For some reason, in the days leading up to the election, the Democrats and the News Media assumed that the majority of States in the Union agreed with their Political Positions and Philosophies.

And, it seems rather likely that they did not inquire of You, either at all, or not very much, as to Your opinion on the direction this Nation was going spiritually.

There was even talk that President Obama might try to impose some kind of Martial Law in order to stay in power and then find a way to have Hillary Clinton take over.

This of course did not happen. But it does underscore that it appears the Democratic Party and its supporters have become afraid of the future.

So I ask You, Lord Jesus, in the context of this Letter, to remember all who did not want Donald Trump to become President, that You would send them True Comfort, True Consolations, True Peace, and True Love.

Let them know that You are in control, and that You are the King of Kings, and the Rightful Ruler appointed by God, over all Governments on the Face of the Earth and in Heaven.

**Amen.**

On Friday morning 20 January 2017, we watched the Inauguration of President Trump on

TV. During the ceremony, it started to rain a little just as Mr. Trump was taking the oath of office. Minutes later, at the time of his closing prayer, Franklin Graham, son of Billy Graham, observed this, and said to President Trump that in Scripture, rain symbolizes the Blessings of God from Heaven

Before I left work for home that morning, I shook the hand of my Filipino Friend at work, this time in the presence of another co-worker, a Chinese Lady from Taiwan, and said for the second time:

**“PRESIDENT TRUMP! PRESIDENT TRUMP”!**

Blessings...

R. C. Theophilus
