

Letter 572  
**VISION**  
**The Pit**  
2017-02-13

Dear **Jesus**,

**Sunday, 12 February 2017, 6AM.**

This past week I have seen by vision the entrance to The Pit, mentioned in Scripture. But I also saw and experienced something else which started a week or so ago.

I have not felt very well since before last weekend, and upon inquiring of the Lord as to why, He informed me that I while interceding for the Nation, and especially for those who are opposed to President Trump and his agendas, I had been caught in a stream of raw spiritual sewage coming from the President's opponents.

Things like Fear, Hate, Revenge, Loathing, Covetousness, Bitterness, Slander, and the like. This made up a slurry of raw untreated spirit-sewage that turned into a torrent of filth as it made its way to the lowest point on the ground.

Indeed, a week ago this last Saturday, just after I woke up, I was sitting at my desk and both knew, and saw by vision, that I was standing in and in danger of being overwhelmed by, the sewage stream. Then I spotted a door set on a concrete foundation ledge just above the surface of the effluent. I hopped up on the concrete ledge and escaped through the door.

But all this last week I felt like my spirit-man had been chemically burned by the raw, fermenting stream of sewage. Then, toward the end of the week I was thinking about something I had previously learned at my place of employment.

The hospital where I work uses a chemical solution called Formalin. This product contains formaldehyde, and is used to preserve medical specimens. It is dangerous when not properly handled, and if spilled out of its authorized container onto another surface, hazardous material protocols become applicable. Should the Formalin be spilled, there is an in-house chemical response kit available to use on the spill. The kit includes a dry, granular product, light green in color, which closely resembles kitty-litter.

The granules are impregnated with another chemical agent that, when exposed to Formalin, changes the chemical composition of the inherent formaldehyde, and turns the Formalin into a different chemical compound, rendering it inert and harmless. In fact it can then be swept up and thrown into the normal commercial waste stream, avoiding the high cost of calling it a professional hazmat team.

I was thinking about this and then wondered if there was a Kingdom version of something like this that could be applied to the spiritual sewage which was burning my spirit-man.

The Lord Holy Spirit then showed me that Your shed blood would do just that. So I prayed

to You that You would apply your Blood to the spirit-sewage, thereby rendering it inert and harmless.

That was several days ago, and I could tell a difference almost immediately, with decreasing pain to my own spirit since then.

But all week long I was also seeing by vision that the flow of this Spiritual River of Sinful Sludge was draining off into The Pit\*. I would see this from time to time over the last few days of the week. The size of The Pit and the River of Sewage that was flowing into it was two or three times larger in circumference than Niagara Falls. I was seeing this from above and at an angle, so I could not see into The Pit for any depth more than a few feet down.

This last Friday night at work I began to think that I didn't want anyone to accidentally fall into The Pit, or get caught up by any future flows of sewage and swept into The Pit, either by accident, by their own purpose, or by someone else's.

So, acting in the capacity of King, I ordered that a Wall be built around The Pit, with a safety drain-grate included at the base of The Wall, allowing only effluent to flow into the Pit, yet preventing anyone from being drawn into the Pit. That way, only those evil spirits who are thrown over The Wall into The Pit by Your angels can enter in.

\*This vision was compliments of angel Bruce (see Letter 505 Volume 6), who was using the conveyed message as one means of re-activating my eyes.

Blessings...

R. C. Theophilus
