

Letter 582  
**Introducing Angel Pamela**  
**AND**  
**Meeting With (CB7)**  
2017-04-05

Dear **Yeshua**,

**Wednesday, 5 April 2017, 4AM.**

Earlier this week the Lord Holy Spirit and I redeemed some time together that otherwise might have been wasted doing other less important things. Please permit me to explain.

This last Sunday evening I received an email from my Massage Therapist saying that she was ill, and had to cancel and reschedule the appointment we already had for the coming Monday morning.

I replied back saying that I would pray for a speedy recovery and for her to be blessed. I then realized that I had some unexpected free time, and wondered before the Lord how to make it worthwhile.

He then gave me the idea that we could just head up to where my brother (CB7) lives in (L20), and see if he showed up at the Starbucks that he frequents.

We did exactly that, and when we arrived in (L20) at about 5:30AM, and as we entered I saw (CB7) sitting on a seat with his cup of coffee in front of him. I waved to him, and after placing my coffee request at the service counter, came back and sat down on the chair across the table from him.

At this point I need to document some back-story which other readers of this Letter would want to know.

(CB7) does not have a phone, so there is no way to call him to make any arrangements. I have dropped by his place in the past, only to miss making any contact.

So, I have only seen (CB7) once in almost two years. This was last summer while I was recovering from surgery, and that was also by Divine appointment.

Also, about six weeks ago I had a vision in which I was introduced to the Leading Angel responsible for Ministering Healing in (L20). A few days after that, angel Gabriel asked if he could invite her over to the house for Family TV time. I agreed, and then I asked him what her name was.

“Pam”, Gabriel said. Pamela is her full name. So, from then until now angel Pam has been routinely joining us for TV dinner time.

While we were on our way to (L20), Gabriel indicated that Pam would be joining us at Starbucks. This was comforting to me. I also prayed to the Lord for a “clear air-space” and a “clean coffee experience”, saying that I wanted my prayer to cover everyone in the Coffee Shop.

While I was sitting with (CB7), he and I talked a little about a variety of things. But I could tell that some of the time I was also conversing with one or more of the demons that still reside in his body.

Sometimes the demons would contort his face, or cause him to laugh at nothing, and I saw and heard them speaking nonsense to themselves when (CB7) went to the condiment bar to put sugar in his coffee refill.

One of the demons has (CB7) picking up cigarette butts off of the ground to smoke. Because the butts are so short, and many of them are presumably without filters, this has produced a discoloring on his fore-finger from the smoke. I suspect that his skin has been "tanned" from all the smoke. This will need to be healed by Jesus when the time comes for (CB7) to be delivered.

And there is another demon present who prevents (CB7) from receiving gifts from others.

But I heard later from my other brother (CB18) that our sister (CS9) senses that this summer will be the time of (CB19)'s deliverance.

Before I parted company, I saw angel Pam standing just behind (CB7), and she then indicated that she would be accompanying him back to his apartment, to which I heartily agreed.

So, there is more Angel Power on site, ready to accomplish the deliverance of (CB7).

Thank You Jesus.

**P. S.** I knew my prayers were being answered due to the amount of peace which was evident in the store.

Blessings...

R. C. Theophilus
