

Letter 591
Obamacare is Dead
2017-05-08

Dear **Jesus**,

Monday, 8 May 2017, 4:30AM.

Thirty minutes ago I woke up from a nap which was about an hour long. I had tried to nap earlier in the day, and I think I dozed a little, but I needed to try again so I could touch REM sleep, because when I woke up for the day the first time it was way too early. That was about 4:30PM. Usually I sleep until 7PM or so on the weekends.

But when I woke up at 4:30PM I could tell by how I felt and what I was thinking that I had interceded for some family members, and been in conflict with spirits of witchcraft, due to the spirit of heaviness I woke up with.

But after this second nap, 12 hours later, I felt really good. My pain level was lower than it had been all day, and I felt really refreshed. So I knew I had touched REM sleep, and not been in conflict with Hell at all.

(M) had already gone to bed for the night, so I went out into the kitchen to figure out what I was going to do. I grabbed some chilled, bottled Starbucks Mocha out of the fridge, and a piece of apple strudel, and proceeded to go into the family room to watch some TV.

Angels Gabriel and Bruce were already there sitting in their usual places. I sat down and turned on the TV, and flipped to Channel 48, so I could see the news on Fox.

The very first words that greeted me on the screen was:

“OBAMACARE IS DEAD”.

I watched the newscast for a minute, then flipped to channel 18, Daystar. There was an interview show on featuring Dr. Alveda King, niece to Dr. Martin Luther King Jr.

During the interview Dr. King said that she had had abortions earlier in her life, then got saved (by You, of course), forgiven (again, by You), and now works for the civil rights of unborn citizens. Then at the end of the interview she said that:

“THE FIRST CIVIL RIGHT IS THE RIGHT TO BE BORN”.

I was about to turn the TV off at this point so I could think about what I had just heard, but before I did so I briefly changed to the TBN channel and saw and heard Pastor Joel Osteen speaking **Encouraging Words** regarding **The Spirit of Excellence**.

Then, it became clear that I needed to document this event, so I went into my office and typed this Letter to You.

I really needed the encouragement which came by this, since the past 8 years of my life has been in opposition to the Obama Administration and its Satanic agendas, especially Obamacare (see Letter 84 Volume 2).

It was during the Obama Administration that I was the most sorely put upon by Hell and their ruler, Satan.

But, it was also during the Obama Administration where You showed the strength of Your arm, and kicked the Devil's ass to a place he'd never been before, along with the beginning of removing just about all of Hell from the face of the Earth over the coming generation.

I still need to recover from all of that. But this gave me some more Hope. Thank You Lord.

Blessings...

R. C. Theophilus
